The AUR Logo
The American University of Rome’s shield and logo is derived from the design of the distinctive paving pattern of Michelangelo’s Piazza del Campidoglio on the Capitoline Hill in Rome. Its twelve-pointed geometry has a multitude of meanings, primary among them in this context the radiant role of Rome as the center of the world, the Caput Mundi, as the ancients fashioned it and as the Renaissance revived the concept. [James Ackerman, The Architecture of Michelangelo (1986), 166-70] Located prominently in the center the open book, a common university motif and symbol of knowledge, is inscribed with the University’s year of founding, 1969 in Roman numerals. The book is encircled by AUR’s motto “Inter Gentes Trans Orbem” (between people across the world) and in more detailed versions is shadowed by the architectural layout of the Colosseum. Together with the University’s acronym the shield suggests AUR’s place in Rome, a symbol of the millennial traditions of art, politics, science and culture that are the basis of the liberal education.

The Alumni of The American University of Rome
AUR encourages its graduates and past study abroad students, who are scattered all around the world, to stay connected with one another and with their Alma Mater through active participation in social events, continuing education, fund raising and recruitment. The AUR Alumni social media networks, the Alumni Blog and the WolfTracks quarterly magazine provide dynamic forums for AUR former students’ exchange. A yearly alumni reunion is organized in Rome in the month of May.
FACILITIES AND ACADEMIC RESOURCES

The University is located in a prestigious area of Rome on the crest of the Janiculum, Rome’s highest hill, just a few minutes walk from the historical Trastevere district. Administrative offices, computer labs, a student lounge and faculty offices are in a four-story villa. Adjacent to the villa, a five-story building houses faculty offices, classrooms, a science lab, a computer classroom, art studio and tutoring centers. Its terrace offers a breath-taking view of Rome. Other campus facilities include an auditorium, a multimedia lab and faculty and administrative offices. A separate two-story villa houses the library.

STUDENT LIFE

Student Life Office
The Student Life Office is the heart of student life at The American University of Rome. Our office strives to complement the academic mission of the University by providing and supporting opportunities for learning through extra-curricular activities. The activities and facilities of the Student Life Office promote students’ personal growth, leadership development, social responsibility, multicultural awareness and intellectual inquiry. The Student Life Office staff is committed to providing superb service in an engaging environment to entice student participation in formal and informal activities. The Student Life Office assists students with non-academic issues, encourages their participation in Italian culture and daily life and supports their social life both on and off campus. It plays an active role in bringing a wide variety of events and activities to students.

Health and Well-Being Resources
The American University of Rome is committed to promoting health and well-being in a caring and confidential manner, for all AUR students. The following resources are available:

Disability Services – Any student with a documented disability, including physical impairment or learning disability, is eligible for services and reasonable accommodations. Accommodations include, but are not limited to, extra time on tests, distraction-free testing environment, textbooks on tape, reduced course load and assistive technology. The American University of Rome is a small institution and as such requests that students with disabilities inform University administration of all necessary services and accommodations before arrival at AUR.

Health Services – The Student Handbook provides detailed information on obtaining the appropriate health care services in Italy. There is a doctor on campus, available daily by appointment and free of charge to students. The Student Life Office also maintains a list of English-speaking doctors and dentists that students may consult. In case of an emergency, an ambulance will take the student to the nearest emergency room and if hospitalization is necessary, patients will be placed in the hospital best equipped for the particular illness or injury. If a student requests to be placed in a private hospital clinic, appropriate arrangements can also be made. All students are required to pay in private hospitals and clinics and are issued receipts for insurance reimbursement.

Mandatory Health Insurance – All students, whether part time or full time, must be covered by health and hospitalization insurance. Upon arrival in Italy, non-European Union students with a visa and acquiring a permesso di soggiorno (permit to stay for study purposes) are required to obtain a health insurance policy. This policy must comply with the requirements of the Republic of Italy for access to emergency public health care. The University will provide relevant information and assistance to students to secure a health insurance policy upon arrival at AUR. The Republic of Italy requires, at a minimum, a health insurance policy. If you do not have a valid, international health insurance policy that provides coverage during your stay in Italy you may purchase an Italian health insurance policy through Eduservice.org which is a third-party provider external to AUR. For further information on visas and permits to stay, please see ‘Admission Requirements’ section of this catalog.

Psychological Counseling – The American University of Rome provides its students with free, confidential psychological services. A certified counselor gives routine, non-medical counseling to students by appointment. Detailed information on this service can be found in the Student Handbook and on appropriate bulletin boards on campus. A psychiatrist is also available by appointment and free of charge to students for prescribing and monitoring medications.

Safety and Security – Emergency phone numbers are located in the Student Handbook, posted in all AUR Student Housing apartments and a card with all emergency numbers is provided to students upon arrival. If an emergency situation occurs it is critical that the appropriate emergency services be contacted first. In the event of a true emergency after-hours, AUR maintains an emergency number printed in the Student Handbook and answered by a University official. In the event of student illness or injury, depending on gravity, the first action is to call emergency services (118) or proceed to the appropriate medical center. The staff on duty manning the emergency phone will be available if further assistance is needed. In such an event, an AUR staff member will advise the home university and/or the study abroad office. Within legal constraint, parents, guardians and the emergency contact will be advised. Additional assistance is provided in the event of a medical evacuation. For non-emergency situations the Student Life Office can be consulted during normal business hours.

Money and Banking
Students should plan to have access to enough money for meals, beverages and snacks, trips, sightseeing, restaurants, theaters, concerts, films, art galleries, souvenirs and local transportation. An estimated cost of living budget can be found in the ‘Financial Information’ section of this catalog. ATM machines are widely available in Rome and most Italian cities. Most Italian banks and the American Express office in Rome will exchange U.S. dollars into Euro, whether in cash or traveler’s checks. Many hotels, stores and restaurants accept credit cards. The University cannot cash or guarantee personal checks. Students can open a bank account in Italy only after receiving an official stay permit. A local bank account is not recommended for short-term stays.

Housing
Students may elect for The American University of Rome to arrange housing on their behalf or may choose to make their own housing arrangements. The American University of Rome takes great pride in providing students with safe, comfortable living environments. All students opting for university housing are provided with fully furnished apartments in areas surrounding the campus for a “full immersion” cultural experience. Each apartment is typically shared by 5 or 6 students and includes the following amenities: PC computer, Wi-Fi, land-line phone, linens, towels, washing machine and a fully equipped kitchen.

Student Government
The American University of Rome Student Government (AURSG) is elected to represent the student body. It is a great way for students to contribute actively to the growth and development of the University. Student Government representatives participate in regular meetings with the administration and faculty and serve on the Curriculum, Library and Academic Fairness committees. Only students in good academic standing are eligible to hold office in the student government.

Student Conduct
The American University of Rome, as a university dedicated to promoting the intellectual and social growth of its students, obliges students to respect one another and behave in a decorous manner both inside and outside the University. The President of the University has the authority to discipline or to dismiss any student who is in violation of the laws of the Republic of Italy or whose conduct violates the rules and regulations of the University. Detailed information on the student code of conduct and other relevant policies, including the Student Code of Conduct can be found in the Student Handbook.
Athletic Facilities
In an ongoing effort to provide opportunities to keep (or get!) fit as well as to rub elbows with Italians participating in yet another authentically Italian activity, AUR has contracted with a successful and popular local gym (palestra) to use its facilities and lessons. For full time AUR degree-seeking and English Language Program students, AUR provides free gym membership. For all other students in attendance at AUR, Student Life has obtained a special discounted price for each academic semester; interested students should pay and enroll directly at the gym.

Athletic Programs
The American University of Rome is a founding member of both the male and female Universities of Rome Soccer and Volleyball Leagues. For a full list of other sport activities offered at AUR, please see the AUR website - Student Life page.

EXCURSION OPPORTUNITIES
The American University of Rome, located in the heart of Italy and well-connected to the rest of Europe, supports a program of learning excursions as an essential activity of its academic life. Excursion destinations, costs and applicable academic credit, if any, vary each semester and current publications should be consulted for semester specific information. Excursions can be categorized as either ‘Learning Italy Excursions’ or ‘Academic Program Excursions’.

A. Learning Italy Excursions
This type of excursion, organized by the Student Life Office, is designed to introduce the newcomer to Italy to the people, art, history, language, landscape and culture of the Italian peninsula. Each excursion also caters for students already well acquainted with Italian language, culture and history by offering an in depth view and unique perspective associated with each destination and itinerary. Many of the excursion destinations are to places “off the beaten path.” These excursions are designed for students from any academic background. Excursions generally vary from one to three days.

Packaged Field Trips
Packaged Field Trips are Learning Italy Excursions for which the university arranges most aspects of the trip such as transport, lodgings, meals, museum entry fees, etc. AUR staff accompany the students on each excursion. Sample excursions are described below.

Tuscany Field Trip
This Student Life weekend trip will take you to the fabled towns of Tuscany: Pisa, Florence and Trequanda and Montecatini. From the world famous tower of Pisa, to the highly sophisticated medieval city of Florence, to the beautiful landscapes of Trequanda (our wine tasting destination). There are cathedrals, city palaces, intimate town squares and breathtaking landscape views. This is the best way for you to become the most “cultivated” traveler and lover of the best of Italy. The Student Life department provides you a chance to visit some of the historical and artistic treasures of these selected cities of Tuscany. There will also be leisure time for wandering, shopping, individual discovery and relaxation.

Capri, Mount Vesuvius - Sorrento and Pompeii Field Trip
A trip to the beautiful Isle of Capri with a tour of the excavations at Pompeii, as well as overnight stays in the town of Sorrento. We will climb to the summit of a volcano, the famous Mount Vesuvius.

Capri: magnificent coastal walks, flower-strewn mountain slopes and, of course, the shimmering blue Mediterranean sea with its natural wonders which include the magical Blue Grotto and Faraglione.

Pompeii: buried under ash and pumice and lost for over 1500 years, this Roman city frozen in time was rediscovered 4 centuries ago. Today this UNESCO World Heritage site offers extraordinary insight into the life of a city at the height of the Roman Empire.

Sorrento: on the Amalfi coast overlooking the Bay of Naples, this cliffside town offers spectacular views across the bay. It is also the home of limoncello.

Mount Vesuvius: famous for having buried Pompeii and Herculaneum under up to 6 meters of ash, and while currently inactive, this volcano is the only volcano on the European mainland to have erupted in the last century.
Assisi Day Trip
This Student Life day excursion will take you to the beautiful town of Assisi: it represents an ensemble of masterpieces of human creative genius, such as the Basilica of San Francesco, which have made it a fundamental reference for art history in Europe and in the world. The interchange of artistic and spiritual message of the Franciscan Order has significantly contributed to developments in art and architecture in the world. The Student Life Office provides you a chance to visit the main historical and artistic treasures of Assisi. There will also be leisure time for wandering, individual discovery and relaxation.

B. Academic Program Excursions

Such excursions include a three-day trip to Palermo and surrounding areas in Sicily, a three-day trip to Torino and a 3-day trip to Umbria. All field trips are also offered as one-credit courses.

International Relations and Global Politics Field Study Trips
The International Relations and Global Politics Program organizes different kinds of Field Study Trips:

• International Organizations (IOs): students have the possibility to participate in a three day Field Study Trip to a city, within the European Union, where major International Organizations are hosted. Each year the city rotates in order to cover the most important ones – i.e. Brussels, Vienna, Geneva, and Paris. The purpose of the Field Trip is to expose students to the goals and aims of these Organizations, arrange meetings and interviews, both with people working in these institutions, and with those revising the impact and work of these institutions to give a complete picture of IOs’ function and role.

• Case Studies: students have the possibility to participate in a three-day Field Study Trip to a city/region that has a particular relevance in current international relations, e.g. Nationalism, Separatism, Conflict resolution, International Intervention. In the last years the Spring Field Study Trips were organized in: Kosovo, Montenegro, Northern Ireland, the Basque Country, Catalonia and Greece.

• J-Term Field Trips: During the J-Term (January) the IR Program has been promoting for a number of years now a very successful Field Study Trip to Ghana.

In January 2015 there was a field trip to Turkey. Future J-term field trips are planned to Israel/Palestine (depending on security situation), to Russia and Cyprus. Updated information regarding J-Term field study trip destinations can be found on the International Relations program’s website: https://www.aur.edu/international-relations/.

• Model United Nations: During the Spring Semester students have the possibility to participate in the Model United Nations (MUN, i.e. a simulation of the UN work sessions), in a European city, practicing their negotiation skills. The MUN is the practical element of a theoretical course that gives students the theoretical aspects of public speaking and critical thinking.

• Half/One day visit: During the whole academic year, many courses take advantage of the numerous opportunities offered in the city (or close to it) to organize half/one day visits, e.g. to International Organization (e.g. the Food and Agricultural Organization, FAO, and the World Food Program, WFP); to Italian Institutions (e.g. Parliament); to non-governmental organizations.

Archeology and Classics Field Study Trips
The Archeology and Classics Program offers excursions in connection with courses in Archeology and Classical Studies. Recent examples include trips to Athens, Herculaneum, Hadrian’s Villa, Sperlonga, Cerveteri, Tarquinia and Berlin.

Art History Field Study Trips
The Art History Program organizes day trips and weekend excursions in connection with Art History courses. Trips to Florence and Venice are usually incorporated as a part of upper level Renaissance art classes. A trip to Paris is often a part of courses on modern European art. In addition the Program offers one-credit courses including a weekend excursion to other major European art venues. Recent examples have been Vienna and the south of France.
SPECIAL PROGRAMS

The American University of Rome offers various credit and non-credit programs to meet the educational needs of the local and international community. Career Services and Internship Office
AUR helps students bridge from the world of academia to the world of work in a number of ways, all managed by the AUR Career Services and Internship Office. The University maintains a wide network of partner organizations, public and private, where AUR students in their junior or senior year can do for-credit internships during the semester or summer. Every semester, the Career advisors offer a series of Career Skills Seminars, each focused on a specific aspect of the job search: researching, networking, interviewing skills, CV writing. Students get valuable input and a chance to hone their skills. Students get one-on-one attention and advice as they craft their CV’s and research the fields in which they are interested. For those students interested in continuing their academic careers, AUR provides graduate school advising as well as special sessions that highlight graduate school programs available in Italy and Europe. The AUR Careers Website is a constantly updated source of full- and part-time job opportunities as well as information about internships and graduate schools.

Internship Program
The American University of Rome supports student endeavors to gain professional and practical work experience by offering various internship opportunities every semester and in the summer. Academic internships for course credit provide students with a practical way of relating their work experience by offering various internship opportunities every semester and in the summer. The benefits of an internship include an enhanced ability to make informed career decisions, a greater appreciation for college coursework, increased marketability and the opportunity to obtain academic credit while gaining professional experience. To apply for an internship, applicants must be enrolled as full-time AUR degree students or as second semester study abroad students in good academic standing (GPA 2.00 or above) and have Junior or Senior standing. A formal agreement between AUR and the internship site organization is required before a placement can begin. A student may complete a maximum of two internships for academic credit.

For students who do not meet the English language proficiency requirements may be offered conditional admission through the The Intensive Academic English Program (IAEP).

Students become eligible to apply to the Undergraduate Programs of The American University of Rome after they have successfully completed the Intensive Academic English Program (IAEP) with a grade of B and above.

Please note that each application for undergraduate admissions received is carefully considered on an individual basis, taking into account the full range of information presented on the AUR online application form including past grades, personal statement, essay, interview and references, before a final decision is made.

**Interview**

All candidates are required to interview – either in person, or over the phone. Personal interviews provide the best opportunity for candidates to share information with Admissions staff, and allow the staff to evaluate a candidate’s readiness to transition to Rome. In addition to an interview and a tour, class visits and meetings with faculty can be arranged. Office hours are 9:00 a.m. to 5:00 p.m. Please contact the Admissions Office to schedule an appointment.

Deferred Admission

A student who has been accepted to The American University of Rome but cannot enroll immediately may request a deferral. Students who wish to defer are required to pay the non-refundable Euro 1000 tuition deposit, plus Euro 500 non-refundable deferral fee. A deferral can be granted up to one academic year after which the student must re-apply for admission to the University.

**Visas and Permit to Stay**

Student visas must be obtained prior to leaving one’s home country. It is not possible to apply for a student visa after arriving in Italy.

All students who hold a non-European Union passport are required by law to obtain a student visa from the Italian consulate before departing from their home country. It is the student’s responsibility to obtain his or her student visa. AUR will provide an official acceptance letter for visa application upon receipt of the enrollment deposit payment.

Students applying directly to AUR must present their application for a student visa to the Italian consulate which serves their place of residence. The process generally takes at least one month.

Students should check with their local consulate to make sure they have all the necessary documents before presenting their application. AUR is able to assist in verifying the status of the student. Full-time AUR students are eligible for a student entry visa and a permit of stay. In order to enroll as a part time student at AUR, students must hold an Italian or European Union passport. Please contact us at: studentlife@aur.edu should you require assistance.

Upon arrival in Rome non EU students will submit an application to obtain a permesso di soggiorno per studio (student permit to stay in Italy), which is issued by the local authorities at the Questura (police station). Students are also required to purchase health insurance. The Student Life Office will help students obtain their first stay permit and health insurance. Further information on this process and the mandatory health insurance can be found in the ‘Student Life’ section of this catalog.

**Placement Examinations**

All new first-year students are required to take placement examinations in Mathematics and English, if they haven’t been awarded advanced placement in these subjects. New transfer students are exempt from taking the examinations only if transfer credits in Mathematics and/or English have been accepted by AUR. Italian language tests are given for students wishing to register for a course above ITL 101. The tests are given during orientation week preceding the start of each semester. The scores obtained will be used for English, Mathematics and Italian placement.

**Incoming Study Abroad Students**

Students registered in other universities as degree students who wish to spend a semester, year or summer at The American University of Rome should consult with the study abroad advisor at their home institutions. AUR has study abroad agreements with many universities and colleges; if the home university does not have an agreement with The American University of Rome, the interested student may apply through providers or directly on the AUR website www.aur.edu. Study abroad student enrollment is competitive; as such, students are encouraged to make an early inquiry and application.
Audit Students
Non-degree students may register to audit a course at The American University of Rome. Students do not earn college credit for audited courses.

The Intensive Academic English Language Program (IAELP)
The Intensive Academic English Language Program, IAELP, is designed as a bridge program for students whose English language skills need development in order to benefit from a full academic curriculum at The American University of Rome. Students will develop speaking, listening, reading and writing skills in English while attending selected credit-based General Education courses at AUR. Upon successful completion of this intensive program, which covers one to two academic semesters, students will acquire the right level of English to apply for admissions to the academic program of their choice at AUR. Students may apply directly into the program or be offered admission to the program on the recommendation of the admissions committee.

IAELP minimum entry requirements
The American University of Rome accepts a wide range of English language qualifications for entry to our Intensive Academic English Language Program. If you do not have any qualifications, or if you wish to take our placement test, you will have the option to do so by booking a place through our website (www.aur.edu).

Cambridge Preliminary English Test (PET) Pass with Distinction / Pass with Merit

After having successfully completed the Intensive Academic English Program, students become eligible to apply to the Undergraduate Program of The American University of Rome. Students who complete the course with a grade B or above are automatically eligible to apply to an AUR undergraduate degree program.

The Admissions Committee will have the discretionary power of deciding whether to give eligibility to apply also to those students completing the Course with a B-, C+, C, C- or D. Those students may repeat the Program in case the Committee does not make them eligible. Students who complete the course with an F grade, will not be able to enrol the AUR undergraduate degree Program but may repeat the Program.

ACADEMIC REGULATIONS

Credits
At a minimum, one semester credit hour equals 15 classroom contact hours of lectures, 30 hours of laboratory or 45 hours of practicum. The majority of courses listed in this catalog carry three semester credit hours. Intensive courses worth four to eight credits and also one credit courses are available. Internships carry three semester credits and require 135 hours of work experience. Credit information on individual courses can be found below each course description at the rear of the catalog.

Course Load and Student Classification
A minimum of 12 credit hours is required to be considered a full-time student. The maximum full-time student load, except for students on the Dean’s List (see the relevant ‘Dean’s List’ section of this catalog), is 17 credit hours. A student enrolled for fewer than 12 credit hours is considered a part-time student.

On-line and blended courses are considered part of a student’s course load for the semester.

Class standing is defined as follows:
- First Year: 0-29 credit hours
- Sophomore: 30-59 credit hours
- Junior: 60-89 credit hours
- Senior: 90+ credit hours

Course Numbers
Course numbers generally adhere to the guidelines below. Exceptions are indicated by the course pre-requisites which may require Sophomore (30 or more credits earned), Junior (60 or more credits earned) or Senior (90 or more credits earned) standing and/or permission of the instructor.

Definitions
Pre-requisites – must be completed prior to the course
Pre- or co-requisites – may be taken prior to or concurrently with the course.
Co-requisites – must be taken concurrently with the course

Pre-requisites
Some courses at The American University of Rome require pre-requisites. With the assistance of his or her academic advisor, the student must ensure all pre-requisites have been met. Where the requirement has been met but the formal pre-requisites are not in place, the academic advisor may approve a pre-requisites waiver. In these cases, a Pre-requisites Waiver form, signed by both the student and the academic advisor, must be submitted to the Registrar’s Office.
Registration
Incoming First-Time-in-College students, as well as Transfer students, will be pre-registered for required courses according to their declared majors before the semester starts. During Orientation Week, incoming students will meet with their Academic advisors to complete and finalize their schedule.

Degree-seeking students must register online (through MyAUR) for the following semester during the registration period as indicated on the Academic Calendar. Students who register late will be charged a Late Registration Fee of 105 Euros. Students need to request approval for their course registration from their academic advisor. Registration is on a first-come, first-served basis. Spaces in courses are limited. Students have the option of wait-listing themselves online if a course is full. If and when spots open up, wait-listed students will be contacted by the Registrar’s Office directly.

Degree-seeking students on financial hold will not be able to register online, but should use a paper registration form, to be approved by their advisor and returned to the Registrar’s Office. The student will be registered once the hold has been lifted and according to class availability at that time.

Online Add/Drop is available to students during the first week of a regular semester and during the first day of classes of a summer session. Students need to receive approval from their academic advisor for any added class. After the Add/Drop period, no courses may be added and withdraw penalties will apply.

The University reserves the right to alter the course schedules, should the need arise. This could include cancellation of classes due to insufficient enrollment, change of scheduled course time, instructor or classroom.

Academic Advising
The academic advising program of The American University of Rome helps students define and clarify their career and educational goals and develop academic strategies to reach them.

It is the responsibility of both the student and his/her academic advisor to participate in the advising process equally. The academic advisor serves as a resource for course/career planning and academic progress review and as an agent of referral to other administration members as necessary. After consultation with his/her academic advisor, the student is ultimately responsible for choosing and implementing his/her academic program.

Learning Accommodations
The American University of Rome does not discriminate based on differing abilities and is committed to providing all students with a high quality educational experience.

While not bound by the "Americans with Disabilities Act" and other legislation, the American University of Rome still makes every attempt to provide all reasonable accommodations. Possible accommodations may include:

- Extended time for papers or projects
- Time-and-a-half for testing
- Testing with limited distractions
- Tape lectures (with appropriate permission)
- Use of a computer for essay exams

In order to request learning accommodations, the student needs to submit medical or psychological documentation, specifying detailed and reasonable accommodation(s), two weeks prior arrival. Please note all documentation must be valid and current (within the past 4 years) and issued by a licensed specialist.

After all required documentation has been received, the Dean’s Office will consult with faculty and staff to determine available accommodations.

Attendance Policy
In keeping with AUR’s mission to prepare students to live and work across cultures, the University places a high value on classroom experience. As a result attendance is expected in all classes and attendance records are maintained. The University’s attendance policy is as follows:

1.0. Minimum Attendance Requirement
Students must attend a minimum of 70% of a course in order to be eligible for a passing grade.

1.1. Automatically Accepted Absences
Students will not be penalized for one absence from classes meeting once a week;
Students will not be penalized for three absences from classes meeting twice a week;
Students will not be penalized for four absences from classes meeting more than twice a week, as in the case of some intensive courses.

1.2. If further absences are recorded, grade penalties will be applied according to the instructor’s specific attendance policy, as stated in the syllabus, and following the institutional parameters given in the Note* below.

1.2.1. If the instructor does not specify an attendance policy, there will be no grade penalty other than that attached to the minimum attendance requirement, and any penalized absences recorded above the basic 70% attendance requirement for the course will be invalidated.

1.3. During Summer sessions where courses are taught more intensively over a shorter period the following applies:
   - Students will not be penalized for two absences from class.

2.0. Tolerated Absences
Certain categories of absence will not be penalized but will be counted as an absence (for a 3-credit course meeting twice a week). These absences are:

- The Model United Nations (MUN)
- Permit to Stay
- SG’s "Ambassador Program" (Student Government initiative)
- Religious Holidays

The American University of Rome makes all reasonable efforts to accommodate students who must be absent from classes to observe religious holidays. (Please refer to the Dean’s Office list of accepted absences for religious holidays). Not attending a class due to the observance of a religious holiday will not be penalized but will be counted as an absence. Students who will need to miss class in order to observe religious holidays must notify their instructors by the end of the Add/Drop period (first week of classes), and must make prior arrangements with their instructors to make up any work missed.

The list does NOT include academic field trips because these (including arrangements for travel) must not overlap with other classes.

3.0. Cases of prolonged absences
caused by an emergency or a medical condition may require students to withdraw from some or all of their courses. Under such circumstances students should first consult their academic advisors.

*Note: No instructor may penalize a student more than one-third of a letter grade for each absence beyond the tolerated limit (e.g. from A- to B+).

Grade Point Average
A student’s grade point average (GPA) is computed by multiplying the quality points achieved by the number of credits for each course. The result is then divided by the total number of credit hours taken. The Cumulative or Career Total Grade Point Average (CGPA) is the grade point average for all credit hours taken at the University and at approved study abroad programs. The GPA and CGPA are calculated by truncating after the second digit after the decimal point. Transfer credits have no effect on the CGPA at The American University of Rome.
Final Examinations
Final exams are scheduled during the day(s) indicated on the Academic Calendar. Students can view the course Final Exam day and time on their schedule online, as of the first day of classes. Students must remain available until all exam and test obligations have been fulfilled. Travel plans are not an acceptable reason to miss examinations. A student may defer a final examination for only three petitionable reasons:
1. documented medical grounds;
2. documented international competition with a national team or other activities with equivalent significance, or;
3. documented compassionate grounds.
Requests for rescheduled examinations are made in writing to the course instructor. A request for a rescheduled examination must be made 15 days prior to the final exam. Consideration for these requests is a privilege, not a right.
If a student is absent during the final examination for medical or compassionate reasons, he/she may be granted a deferred examination. Applications for a deferred examination after the examination has been missed, must be filed in writing with the course instructor within 48 hours of the date of the missed examination. A medical certificate of otherwise appropriate documentation may be required.

Grades
Grades are posted on a secure area of the University’s official website and are mailed to AUR degree students only upon written request. Grades are mailed to the various study abroad programs. Grades computed in the (GPA) reflect the following grade equivalents:

Grade Appeals
1. Students unsatisfied with their final grade in a course should contact the instructor of the course as soon as possible.
2. Only after having met with the professor, can students request to see the Director of the Program in which the course in question was offered. If students and Program Directors cannot agree about grades, students may request of the Dean an appeal to the Committee on Academic Fairness, no later than 30 days after the grade has been issued. The Academic Fairness Committee will not make sensitive academic judgments or delve into the academic content of papers, quizzes, or exams, etc., but rather it will determine the fairness and accuracy of the grading process and assessment tools. It will look for human or computer errors in calculation, or basic systemic errors that could be construed as unfair or partial to one student or another. The decision of the committee is final, therefore grades may go up or down depending on the judgment of the four members of the committee.
3. Students are responsible for laying out the grounds for their appeals in writing; either instructors violated institutional requirements or the criteria for grading laid out in their syllabi. Students will supply to the committee graded work from the course in their possession.
4. When an Academic Fairness appeal is made the Dean will determine if there exists a prima facie case for an appeal. If it is determined that no such case exists the Dean will write to the student informing him or her of the decision and the reasons motivating that decision. The decision of the Dean is final. If it is determined that a prima facie case for an appeal exists, the Dean will inform the student of this and convene the Academic Fairness Committee (see paragraph above). The Dean will supply the instructor’s written explanations of how the student’s final grade was arrived at and any student work in the instructor’s possession. The Registrar will supply the instructor’s reports of final grades in the course and student’s final examination in the course, and the Dean will supply course syllabi and convene the Academic Fairness Committee.
5. The Academic Fairness Committee, composed of two student representatives appointed by the Student Government and two Faculty members appointed by the Dean, provides a court of appeal for students who believe they have been unfairly treated. The committee is chaired by the Dean or the Dean’s designee, who is ex officio and non-voting except in the event of a tie. If it upholds a student’s appeal, the Dean will change the student’s grade to reflect the deliberations of the committee; if the appeal is denied, there is no further appeal.

When students are no longer enrolled at AUR
The Dean will consult with instructors and send students no longer enrolled at AUR explanations of how their final grades were arrived at. If instructors and Program Directors cannot agree about grades, students may request of the Dean an appeal to the Committee on Academic Fairness. (see paragraphs 4. and 5.)

When instructors are no longer teaching at AUR
Program Directors will consult with instructors by email or telephone and explain to students,
Course Repeition
A student will normally be allowed to repeat a course if the original grade was an F, D, C-, W, or W. While the student will earn credit for the course only once, grades for all attempts remain on the transcript and are marked by an asterisk next to the grade. Instead an ‘R’ to the right of the grade identifies the higher repeated grade that is computed in the grade point average. Both the original course and the repetition of the course will be considered credit hours attempted for the purpose of determining successful course completion percentages.

Incomplete Grade Policy
The grade of Incomplete (I) may be given to a student who is unable to complete a course due to extenuating circumstances. This grade is given at the discretion of the instructor and only if the student is eligible for a passing grade in the course to that point. An Incomplete Contract must be completed for an Incomplete grade to be given. The Incomplete Contract must be signed by both the instructor and the student. It must detail the work to be submitted, the deadline by which it must be submitted and the grade which should be substituted for the Incomplete should the student not fulfill the contract. The submission deadline should not extend beyond the last day of the following semester.

On completion of the contract, the Incomplete grade must be replaced through the completion of a Change of Grade form by the instructor. If no Change of Grade form is received, the default grade from the incomplete contract will become the final grade. An Incomplete grade will not be recognized without proper documentation. An Incomplete grade cannot be replaced by a W. An Incomplete may not stand as a permanent grade.

Course Withdrawal (W and WU)
Students who wish to change their schedule by dropping a course within the published time parameters need to consult with their academic advisor before dropping the course online. After the add & drop period ends, in order to withdraw from a course, a student should consult their academic advisor first and then complete a drop form to be submitted to the Registrar’s office. Students who withdraw from a course prior to its completion will be assigned the grade of W if they withdraw before the withdrawal deadline (as specified in the Academic Calendar) or WU if they withdraw after. Exceptions may be made after withdrawal deadlines have expired only by completing a ‘Petition to Drop Courses After the Deadline’ form and by receiving permission from the Dean and the Registrar. Medical withdrawals will be assigned a grade of W. A change of grade may be allowed for a medical withdrawal. The grade ‘W’ is not calculated into the CGPA. The grade ‘WU’ is considered an F and is calculated into the CGPA.

Both the W and WU will be considered credits attempted for which the student has incurred a financial obligation for the semester (see also Refund policy) and will affect the successful course completion percentage. Any withdrawal after the withdrawal deadline as specified in the academic calendar will be considered an unofficial withdrawal (WU).

Only in the case of 1-credit academic fieldtrip courses, students are allowed to drop the course, without a ‘W’ recorded, up until a week before departure. If students choose to withdraw from the 1-credit course after this point, they may do so with a W recorded, as long as they submit their withdrawal request before the first day of final exams. Any withdrawal or non-completion after the first day of final exams will be recorded as an unofficial withdrawal (WU).

Dean’s List
Each semester full time degree seeking students who have completed the previous semester’s work with a grade point average of 3.50 or above on a 4.00 scale are placed on the Dean’s List. No grades of D, F, I, or WU are allowed in any course completed or attempted. Students must complete 15 credits or more in the semester. Inclusion on the Dean’s List is recorded on the official transcript. Students on the Dean’s List are permitted to enroll for six courses for the following semester at no additional charge.

Standards of Satisfactory Academic Progress
All students must meet the following minimum standards of academic achievement and successful course completion to remain enrolled at the University. The student’s progress is monitored each Fall and Spring semester and evaluated at the required evaluation points on the satisfactory progress table. Non-credit courses (e.g., Developmental English) are not counted as credits attempted, earned or taken and, therefore, do not affect the grade point average. Thus these courses do not influence the standards of satisfactory progress. Change of major does not affect the standards of satisfactory progress. Pursuit of an additional degree (e.g., pursuit of a Bachelor of Arts degree following completion of an Associate of Arts degree) does not affect the standards of satisfactory progress.

Maximum Time Frame and Successful Course Completion
The maximum time in which a student is permitted to complete a degree is equal to the period of time during which the student attempts 1.5 times the number of credit hours normally required to complete the program (180 attempted credits). In no case can the student exceed 1.5 times the standard time frame and receive the original academic credential for which he or she enrolled. Part time students should consult the Registrar for further information on the appropriate satisfactory progress standards.

Minimum Academic Achievement: Probation and Suspension
The table above defines two criteria (CGPA and per cent of attempted credits earned); both must be satisfied to avoid suspension following a semester on probation. Students who fail to maintain a GPA of 2.00 for any fall or spring semester will be placed on probation. The student may not register for more than 12 credits per semester while on probation. At the end of that probationary period, if the academic record is not in compliance with the standards of Satisfactory Progress, the student will be suspended for a minimum of one semester. The student is considered to be maintaining satisfactory progress while on probation. However, the student on probation may not hold office in student organizations nor participate in the student assistantship or resident assistant programs. Transfer students shall have their status determined for purposes of satisfactory academic progress measurement by including the number of transfer credits accepted toward the degree in both attempted credits and earned credits.

Attention is called to the three sections immediately following, which specify rights of appeal and related regulations.

Mitigating Circumstances
The Dean may waive the academic progress standards for circumstances of poor health, family crisis or other significant occurrences outside the control of the student. These circumstances must be documented by the student to demonstrate that they have had an adverse impact on the student’s performance. Students who receive a waiver of the standards of satisfactory progress will be on probation. All graduation requirements must be met.

Appeal of Satisfactory Academic Progress Standard
Should a student disagree with the application of these satisfactory progress standards, he or she must first discuss the problem with the Dean. If still dissatisfied, the student may then appeal to the Academic Fairness Committee (see relevant section above).

Reinstatement as a Regular Student
Students who wish to be readmitted after being suspended due to failure to maintain the academic minimums must reapply for admission but not before a full fall or spring semester has passed from the time of suspension. If the student is readmitted, he or she must retake courses previously failed as soon as these courses are offered or demonstrate the skills applicable to the student’s academic objectives. If readmitted, the student will be placed on probation for a period of one semester. At the end of the probation period, if the student’s academic record is not in compliance with the standards of satisfactory progress, the readmitted student will be dismissed from the university.

Academic Integrity
Integrity is fundamental to the academic enterprise. It is violated by such acts as borrowing or purchasing assignments, including but not limited to term papers, essays, and reports; lending to or producing assignments for others (either for or without payment); using concealed notes or crib sheets during examinations; copying the work of others and submitting it as one’s own; and otherwise misappropriating the knowledge of others. Such acts are both dishonest and deceptive: the work submitted to instructors is not the work of the person whose name it bears.

In consequence, the sources from which one derives one’s ideas, statements, terms, and facts, including internet sources, must be fully and specifically acknowledged in the appropriate form. Failure to do so, intentionally or unintentionally, constitutes plagiarism. An act of plagiarism will be reported to the Registrar’s office and noted in the student’s file. After three incidents of plagiarism, the student will be suspended from the University for at least one semester.

Intentional Plagiarism
Submitting a paper written by someone else - a paper written by another student, a purchased paper, a paper downloaded from the internet - can only be construed as intentional plagiarism. So, too, is writing a paper for someone else. The evidence is non-debatable.

Such instances will be reported to the Dean, who will require the student (or students) involved to sign the following statement: "Submitting a paper written by someone else as my own work (or writing a paper for someone else) is dishonest. I understand that repeating this offense will result in my suspension or permanent expulsion from AUR." The instance will also be entered on the student’s record. A second instance will result in suspension or permanent expulsion from AUR.

The Instructor will have the option of failing the course; the student (or students) involved; averaging the zero grade of the plagiarized paper into the student’s final grade; averaging the zero grade of the plagiarized paper into the student’s final grade and requiring another paper in its place; or accepting another paper in place of the plagiarized paper and dropping the zero grade. The student will also be required to attend the Writing Center for instruction in the proper use of sources. Such instances will also be reported to the Dean and entered on the student’s record or, for a study-abroad student, reported to the home institution. A second instance may result in suspension or permanent expulsion from AUR; a third instance will result in suspension or permanent expulsion from AUR.

Cheating on Examinations
Cheating on examinations in any form whatsoever — using concealed notes or crib sheets, getting help from another student, or giving help to another student — is a serious offense against academic honesty. The instructor has latitude in determining the seriousness of the offense and the penalty: failing the student in the course; averaging the zero grade of the plagiarized paper into the student’s final grade; averaging the zero grade of the plagiarized paper into the student’s final grade and requiring another paper in its place; or accepting another paper in place of the plagiarized paper and dropping the zero grade. The student will also be required to attend the Writing Center for instruction in the proper use of sources. Such instances will also be reported to the Dean and entered on the student’s record or, for a study-abroad student, reported to the home institution. A second instance may result in suspension or permanent expulsion from AUR; a third instance will result in suspension or permanent expulsion from AUR.

In all these instances students have the option of an appeal to the Academic Fairness Committee.

Classroom Behavior
It is the professor’s ultimate responsibility to establish behavioral tone in the classroom. Guidelines on attendance, class participation, tardiness, etc. are to be outlined in the course syllabus or clearly stated by the professor in class. It is incumbent upon the student to honor these guidelines. While the professor should engage in a policy of positive reinforcement in his or her teaching practices, students must maintain a sense of decorum in the classroom conducive to a high standard of education. AUR does not permit, for example, the use of cell phones during class. All phones must be turned off before entering the room. Students are also encouraged to take care of all personal needs outside of the classroom. Leaving and re-entering class during lectures is not allowed. Disruptions of any sort for any reason other than an emergency are considered a serious violation of classroom decorum. Repeated disturbances of this kind may have academic and disciplinary consequences.
Financial Aid Director if they have financial aid. The nature of education depends upon the free exchange of ideas, and the university classroom is a safe space where ideas are explored and debated in a respectful and thoughtful way. Because cyber bullying attacks the fundamental tenets of intellectual inquiry, any student found guilty of cyber bullying another student or a professor will be immediately suspended from the university.

Study Abroad Opportunities for AUR Students
With the approval of the academic advisor, AUR degree students may apply to participate in study abroad programs offered at other institutions. Courses taken at other universities must be pre-approved by the academic advisor and a Transfer Credit Permit Form must be completed and submitted to the Registrar’s Office. This also applies to J-Term and Summer sessions (see also AUR Abroad).

Transfer credits for current degree-seeking students
If a current student wishes to take a course outside of The American University of Rome, the student needs to complete a “Transfer credit pre-approval form” or an “Online course approval form”. This form is to be approved by his/her academic advisor and submitted to the Registrar’s office prior to enrolling in the outside course. Attached to the form, the student should also submit an official course description or course syllabus for each course. The rules and conditions for the transfer of academic credits are outlined under the ‘Transfer Students’ section of the Admission Requirements (pp. 31-32). In general, credit from academic courses taken at institutions of higher education accredited by an American regional accrediting association, as well as from nationally recognized institutions of higher education outside of the U.S., will transfer, provided that the course is completed with at least a grade of “C” and that the course is similar in content, scope and level to work offered at The American University of Rome. A student is not permitted to take an online course if the course is offered at The American University of Rome during a given semester and the final semester must be completed in residence at AUR.

Students are not allowed to take online courses if they are receiving US Federal Financial aid, or will be doing so in the future. All students receiving US Federal Financial Aid are advised to check with AUR’s Financial Aid office before enrolling in courses at another institution. On completion of the course(s), the student must submit an official sealed transcript to the Registrar for posting to his/her academic record. Transfer credit grades are not included in the student’s grade point average.

Leave of Absence
AUR degree students in good financial standing may take a leave of absence by filing the appropriate request form with the Registrar. A leave of absence can be for no more than one year and that the student is in good financial standing with the University. All students returning to the University must reapply for admission under the rules then applicable should he or she decide to return. A leave of absence deposit fee is required (Euro 120). This fee will be credited toward the tuition payment once the student returns, otherwise it is non-refundable. Students are advised to contact their academic advisor to understand how a leave of absence will affect their degree progression, as well as AUR’s Financial Aid Director if they have financial aid.

Withdrawal from AUR
Students wishing to withdraw from the University should complete a Withdrawal Notification form available from the Registrar or notify the Registrar in writing. Degree seeking students who do not enroll during the following regular semester (Fall/Spring) and are not recorded on a leave of absence will automatically considered as withdrawn.

Graduation
The formal commencement ceremony is held at the end of the spring semester for degree candidates who have completed all graduation requirements that academic year. Degree candidates who have yet to complete a maximum of eight credits in the following Summer session may also apply to participate in the ceremony. There are three degree conferral dates per year (noted on transcripts and diplomas): in December, May and July or August. These three dates will constitute a graduating class. Candidates for degrees are to file a Graduation Request Form with the Registrar before beginning their final semester of study. Applications for graduation will only be approved by the academic advisor after the advisor has completed a graduation audit. Students must pay the graduation fee by April 30th in order to participate in the ceremony and/or receive their diploma. Students graduating in the fall semester must pay the graduation fee by November 30th. Students may not file an application for graduation during the summer sessions. Diplomas and transcripts will be issued only to students in good financial standing with the University and only these students may participate in the commencement ceremony.

GENERAL EDUCATION*
Completion of the General Education program is a requirement for all bachelor’s degrees, and makes use of courses throughout the AUR curriculum. Consistent with the mission of the University, the program develops important practical skills, addresses social issues of diversity, multiculturalism and ethics and draws on the rich resources of the city of Rome as a learning tool. Reflecting the mission of the institution, it strives to ensure that all students, regardless of major, will share a common dialogue which will prepare them to live and work across cultures.

The goals of The American University of Rome’s General Education program are:
1. to develop and strengthen basic skills which will prepare students upon graduation for a modern working environment and which will be adaptable to a rapidly evolving economy.
2. to cultivate an awareness of, and sensitivity to, cultural diversity and its importance in personal and professional decision making.
3. to achieve a broad knowledge base, drawn from multiple disciplines, typical of an American Liberal Arts Education
4. to use Rome as a classroom and as an invaluable learning resource.
5. to encourage active and responsible citizenship through knowledge of the forces shaping the actions of individuals and societies and through the development of critical thinking.

The General Education program requirements are shared by all majors, though each major may also require particular General Education courses to satisfy major requirements.

A. FOUNDATIONAL SKILLS (17-35 credits)
AUR requires that all students achieve excellence in the following skills: Writing, Quantitative Reasoning, and Italian Language. These skills provide a basic knowledge which can be adapted to any academic discipline and will enable the individual to respond effectively to challenges both in the classroom and in his or her profession.

There are four elements to the Foundational Skills program: First Year Seminars (FYS 101 and 102), Writing Skills, Quantitative Reasoning, and Italian Language competence. These elements are satisfied by taking required courses that specifically address these skills. Foundational courses must be completed by the end of the sophomore year (within the first 60 credits).

1. First Year Program (0-6 credits)
These courses provide a transition to university studies for first-time-in-college students. FYS 101 (First-Year Seminar) introduces students to the skills and practices necessary for a successful college career, and is tied closely to foundational courses in writing. FYS 102 (Explorations in the Liberal Arts) builds on the academic skills acquired in the first semester, allowing students to explore a theme from a variety of disciplinary perspectives. Transfer students with 30 or more transfer credits are exempted from this requirement.

and
FYS 102        Explorations in the Liberal Arts

2. Writing Skills (6-12 credits)

These skills are further developed in the Breadth of Knowledge section of the General Education requirements, and through discipline-specific upper-level courses within the major.

Students will be placed in a course appropriate to their writing ability via placement test or transfer credits before their first semester, and may need up to three semesters to complete the requirement.

Towards this end, AUR students take courses in all of the disciplinary areas that contribute to the Liberal Arts: Creative Arts, Humanities, Natural Science, and Social Science. As well as introducing students to the varied approaches to knowledge, the courses included in these content areas integrate key skills essential to a successful career in college and in the workplace, such as Information Literacy, Oral Presentation, and Information Technology.

D. ALTERNATIVE EDUCATIONAL EXPERIENCE (0 or more credits)

Each student’s program of study must include at least one application of his or her gained knowledge and skills to an educational experience beyond the traditional university classroom. Such experiences encourage students to consider the relevance of their studies in real-world contexts, to understand their individual impact on the community beyond the AUR campus, and to contribute to their own future success. Some Alternative Educational Experiences are credit-bearing (Internship, travel courses etc.) with graded assignments and/or required tasks, others may not be credit-bearing and will require a reflective process* (in the form of essay, artwork, blog, or other output) to complete the requirement. Possible Alternative Educational Experiences:

- Internship (INT 450)
- Service Learning*
- Study Abroad
- Fieldwork/Practicum or other non-AUR credit-bearing or volunteer* program
- Independent Travel for Research (minimum 7 consecutive days)*
- Three 1-credit field trip courses
- Military service*
- Participation in an undergraduate conference, performance, exhibition, or journal outside the university, which has been peer-reviewed, juried, or otherwise assessed for scholarly or artistic merit

Students must consult with their advisors before embarking upon an Alternative Educational Experience; if the selected AEE does not take place within a defined course or term, the student must submit a brief proposal and completion schedule, to be approved by their advisor and the Director of General Education.
The Bachelor of Arts in Archeology and Classics program offers the student the opportunity of combining the study of archeology with classics in the unique context of the city of Rome. Drawing upon a wide range of high-level academic and practical skills the student will receive a thorough Liberal Arts education which also focuses upon preparation for the workplace. In addition to traditional courses in Ancient History and Classics, students have the possibility to excavate archeological sites, explore the ethical concerns of conservation and restoration and study the management and marketing of heritage.

The traditional classroom environment is complemented by on-site classes visiting ancient monuments, museums, archeological sites and specialized laboratories. Students are encouraged to participate in the archeological fieldwork opportunities available in the program. These not only give a good foundation in archeological techniques but also provide an opportunity to develop teamwork skills in a multicultural environment with international collaborators.

The undergraduate degree is available in three formats. Students wishing to focus solely on the academic basis of the discipline can take a degree in Archeology and Classics. Students who envisage a future career path in cultural heritage can take a degree in Archeology and Classics with Cultural Heritage. It should be noted that this degree is not, by itself, a preparation for a career in this field, but is intended to provide the basis for application to an appropriate graduate program. Students who are considering working in field of popular archeology can take a degree in Archeology and Classics with Screen Media. A full range of Latin courses from beginners to advance is available and a minor in Latin is open to all majors.

Program Goals
1. To provide a high quality education that will give students the necessary skills for a highly evolving field of employment
2. To develop cross cultural sensitivity with particular regard to the management of, and research into, the classical civilization, archeology and cultural heritage of the Mediterranean world

BACHELOR OF ARTS IN FINE ARTS 120 credits

The program in Fine Arts combines training in traditional artistic media and a critical approach to art making typical of American curricula with an intense immersion in the city that has inspired artists for centuries: Rome. Courses at all levels on-site and in the studio emphasize developing personal capacity for visual expression, creative innovation, critical observation and analysis, and technical ability, taking inspiration from the vibrant contemporary art scene and historical monuments in Rome and throughout Europe. Students develop skills to create works of art in various media, to defend their works in writing and orally, to discuss their works within the context of contemporary art making, and to create works of art appropriate to their own artistic vision. Fine Art Programs aim to prepare students to progress to advanced degrees and/or positions in fields related to the Fine Arts.

The curriculum for the Bachelor of Arts in Fine Arts instills in its students the capacity to:
• Demonstrate basic skills to create works of art in at least three different media and show advanced skills and knowledge to create works of art in at least one medium and intermediate skills and knowledge of at least one other medium — demonstrating safe working habits and a general understanding of materials and process in the visual arts.
• Defend their portfolio work both orally and in written statement and create original objects of art and articulate the nature of art and art making
• Interpret and create written or spoken dialogue about diverse works of art and convey thoughts and ideas in relation to an art historical timeline, apply contemporary concepts in art to their own work and articulate and discuss art within their own culture and the art of other cultures.
• Demonstrate a capacity for visual expression and creative innovation and a more personalized visual vocabulary, thus presenting and applying their skill in studio practice in the creation of a cohesive body of work on a level appropriate to entry into both graduate schools and art-related professions.
• Articulate about their own work, the work of others, and the condition of art in a contemporary, global, and multi-cultural society.

Students have the opportunity to gain expertise in the making of art by completing specific core courses, selecting a specific concentration of either painting or printmaking. In addition students can simultaneously gain an extension beyond a standard studio based arts degree and gain also a complementary background in the areas of Communications, Conservation, Cultural Heritage and Gallery Management.

The aim of the curriculum is to give students a well rounded preparation in the Fine Arts to ensure that they are versatile and prepared for the competitive job market. In particular, a major in Fine Arts would also serve as a preparation for students wanting to enter the field of study relating to restoration and/or conservation. The major will enable students to develop a large portfolio of work which, with the final thesis exhibition, will enable them to have a body of work to present for future MFA or related Masters, and career possibilities including curating, arts administration, art therapy, artist assistant and gallery work.

The Bachelor of Arts in Fine Arts requires successful completion of 120 credits of which: General Education requirements (variable number of credits), 36 credits of major requirements and a number of free elective credits. Students must achieve a cumulative grade point average of no less than a 2.00 on a 4.00 scale with no grades of D and no more than one grade of C- in core courses required for the major (21 credits).

Unless otherwise stated, each course carries three credits.

The Program includes core courses in the discipline coupled with area studies (e.g. Mediterranean and Middle East studies; Asia studies), combining local, national and global politics. Students will be taking courses such as: International Relations, International Political Economy, Globalization, International Security, Ethics, Migration and Human Rights, as well as introductory political science courses (e.g. History, Sociology, Anthropology and Psychology). Special language courses are also offered, i.e. Arabic, Mandarin and Russian.

The J-term field study trips went to Ghana for several years. In January 2015 there was a field trip to Turkey. Future J-term field trips are planned to Israel/Palestine (depending on security situation), to Russia and Cyprus. Updated information regarding J-Term field study trip destinations can be found on the International Relations program’s website: https://www.aur.edu/international-relations/.

The Model UN is a practical exercise that follows a theoretical preparation offered within the International Relations Program. Internship possibilities in Rome at International Organizations (e.g. Food and Agricultural Organization; World Food Program; International Fund for Agricultural Development; NATO Defense College) represent a great opportunity students can exploit during or after their Bachelor degree in International Relations and Global Politics at AUR.

In addition to the requisite classroom time, students pursuing an AUR degree in International Relations and Global Politics are given the opportunity to supplement class lectures with International Conferences which address issues of current topical interest and give students opportunities to meet, listen to and question those who develop and implement international relations policy. Monthly Special guest seminars (e.g. ambassadors; politicians; academics) will complement course lectures and offer food for thought.

After having completed AUR’s program in International Relations and Global Politics, students will:

BACHELOR OF SCIENCE IN BUSINESS ADMINISTRATION  120 credits

The Bachelor of Science in Business Administration (BSBA) curriculum provides a broad, professional foundation in all functional areas of business. Students follow a structured, organic core curriculum that introduces them to the various functions (marketing, finance, operations, accounting) of business, provides them with the quantitative tools (algebra, statistics, computer science, economics, decision science) necessary to understand and interpret data, and introduces them to prevailing management theories and paradigms as well as issues related to legal and ethical concerns in the business arena. Upper level courses incorporate case analyses, group projects and creative problem solving. All students take the capstone course, Strategic Management, in their last spring semester. This is a seminar-style, case-based application of the tools and concepts acquired in the first three years of study. At the same time they research and write their thesis, a strategic audit of a publicly traded transnational firm of their choice.

The program has an international focus with many opportunities for students to explore the social and cultural ramifications of operating in the global economy. The nature of the student body complements the international flavor of the program. AUR Business students represent more than 30 different countries. The program promotes a work ethic that prepares students for working in diverse multi-cultural environments. Interdisciplinary learning opportunities allow students to understand how different world views can affect the functioning of business. The BSBA program will enable students to:

• Select and apply appropriate quantitative and qualitative methodologies to analyze problems in a business context.
• Develop creative and innovative solutions to real-world problems.
• Develop leadership and organizational skills, working in teams toward common objectives.
• Apply a variety of communication methods that are used in the business world in order to articulate and resolve business problems.
• Situate business problems and appropriate solutions within their cultural and ethical contexts.

Students armed with the AUR Business degree are ready to begin their careers in business in the fields of marketing, finance, manufacturing, sales, advertising and management, and should be comfortable working in either American or international settings. The degree also provides a firm foundation for MBA graduate study.

The Bachelor of Science in Business Administration requires successful completion of 120 credits of which: General Education requirements (variable number of credits), 48-51 credits of major requirements and a number of free elective credits. Students must achieve a cumulative grade point average of no less than a 2.00 on a 4.00 scale with no grades of D and no more than one grade of C- in core courses required for the major (36 credits).

BACHELOR OF SCIENCE IN TRAVEL AND TOURISM MANAGEMENT 120 credits

The Bachelor of Science in Travel and Tourism Management curriculum is designed to meet the needs of the travel and tourism industry, which ranks among the most exciting, dynamic, and fastest-growing sectors on the planet, by combining liberal arts courses, business courses, specialized courses in travel and tourism, and real-world experience.

A degree in Travel and Tourism Management will prepare students for entry level management positions as well as exciting entrepreneurial careers in this rapidly expanding global market, by equipping them with essential industry knowledge and leadership skills in tourism destination planning and development, innovation, management and marketing, accounting and finance, operations, as well as travel and tourism economics and global policy, both in and out of the classroom. Students will learn how to think and act strategically, solve problems individually and in teams, and apply acquired knowledge in practice.

TTM graduates will find themselves operating tours, working in travel and tourism bureaus, cultural heritage sites, working for airlines, hotels, cruises, resorts, restaurants, museums and galleries, media and communications organizations, or even establishing their own businesses. Preparation for such careers is achieved through a combination of theoretical and practical knowledge gained through classroom instruction, field trips, seminars with travel and tourism experts and leaders, and hands-on experience. In their junior year, students are given internship opportunities in a local Italian tourism environment.

There is no better place to study Travel and Tourism than Rome. The Eternal City is one of the world’s most important tourist destinations due to its archaeological and artistic treasures, unique traditions, panoramic views, and magnificent villas. Studying travel and tourism in Rome affords ideal opportunities for unique fieldwork experiences. Cultural and heritage tourism as well as food tourism and religious tourism play key roles not only in Italy, but also in Europe, whose tourism product is built primarily on culture. Therefore, if they choose, TTM students can specialize in one of three concentrations: Food Tourism, Cultural & Heritage Tourism, and Religious Tourism.

Upon completion of the BS in Travel and Tourism Management students will be able to:
1. Identify place attributes that contribute to creating destination for visitors and describe how tourism generates economic impact locally, nationally, and internationally as well as analyze domestic and international trends in the travel and tourism industry.
2. Demonstrate an understanding of the foundations of tourism: the respect for the host culture and responsibility to preserve the unique values, traditions, and practices of that place, examining the positive and negative aspects that tourism can bring to a region or destination.
3. Develop creative and innovative solutions to real-world problems in the travel and tourism sector.
4. Communicate effectively and confidently demonstrating leadership and teamwork skills to achieve goals.
5. Use knowledge of best practices and multicultural perspectives to champion economic, environmental and cultural sustainability in the travel and tourism industry.

The Bachelor of Science in Travel and Tourism requires successful completion of 120 credits of which: General Education requirements (variable number of credits), 48-51 credits of major requirements and a number of free elective credits. We will investigate cases from the facts that make up each side to the potential evidence useful to expose culprits. This course will be full of discussions about the cases and creative approaches to reaching the solutions. The approach is hands-on so students will have a chance to participate in the process, not simply study it.

ARC 404 – ARCHEOLOGY OF FOOD
This upper level course explores how food has been used in archeology to address cultural phenomena. The study of the archeological record (faunal remains, botanical data, pottery analysis) has traditionally provided an indirect evidence of food consumption, while it is only through the application of biomolecular techniques that we were able to determine directly what people ate in the past. This has changed the way we have used food consumption to define past cultures and has often challenged hitherto beliefs, from the so-called ‘revolutions’ of European prehistory to the feasts of Roman times. This course will compare and contrast different methodologies for studying food consumption in the past.

3 credit hours. Pre-requisites: A level 300 course in Archeology or permission of the instructor.

their own line of communication with their subjects, and seek the creation of a parallel world
rather than a reproduction of what is around them. Critiques and discussion provide insights into

as photos may spark off a new illumination when effectively arranged together in a sequence.
Students will be taught how to effectively communicate with their cameras. They will learn how
to reach maximum impact through careful composition in different areas of photography such
as photojournalism, the portrait, and advertising. They will also be taught the meaning of scene

AH 324 – ART OF THE ROMANTIC IMAGINATION, 18TH AND 19TH CENTURY ROME
Neoclassicism is the artistic expression of the Enlightenment. It found in Rome a natural breeding ground, since the city was still imbued with memories of its Classical past. During this course we will see how Neoclassical art owed to its own time as much as to Antiquity, and how it reflected an enthusiasm for the ideals of the French Revolution, the majesty of the Napoleonic Imperial Age and the restoration of papal temporal rule. The second part of the course is devoted to Romanticism, a cultural movement born in Northern Europe with the development of nations-states. It too found fertile ground in Italy, which would itself be finally unified during the Risorgimento. Art therefore became a vehicle for political propagandizing, with artists referring back to the Middle Ages as the last period of Italy’s independence from foreign rule. Italy contributed once more to the development of European art through its “Macchiaioli” movement in painting, which anticipated Impressionism, and through the vast urbanistic programs to renovate and modernize Rome, now a capital again, in the closing years of the century.

COM 209 – NEW MEDIA AND SOCIETY
The course provides an overview of the impact of the advent of digital media on society and its cultural, social, economic and political implications. The increased power and speed of the Internet, in terms of its capacity to deliver and manipulate content, has enabled a new culture to emerge, the culture of convergence whereby individuals can deliver content and news with potentially the same capacity as traditional centralized information producers. Furthermore, the decentralized production leads to processes with rapid interactive feedbacks resulting in changes in the social behaviour when the information is consumed, repackaged and recombined with other sources. According to Manuel Castells and other scholars, digital communication networks are transforming society as a whole. The ‘network’ is becoming the predominant form of organization in advanced societies. This is evident in business, in patterns of work, in identity and community, in politics and social movements. But what exactly is a ‘Network Society’? And do we live in one?

The course will critically engage with these developments and introduce some of the key debates and theoretical approaches concerning interactive digital applications and tools. We will investigate the implications of social technologies and new models of content production, discussing issues of identity, community, production and consumption, as well as campaigning and activism.

This course examines the definition of intellectual property, how “IP” plays a role in today’s digital media such as Facebook, Youtube and Twitter, how to protect and monetize one’s own IP and whether the laws designed to protect intellectual property should be strictly enforced or rethought altogether.

In this age of digital and social media, it is possible to expose a person’s most intimate secrets, likeness and personal information to the public in literally a matter of moments. Whereas the exposure of someone’s likeness or private information might in some circumstances be self-inflicted and either intentional or unintentional, in many circumstances, it is the unwanted, intentional action of a third party seeking commercial gain without consent who is the culprit. The EU is the most interesting political entity in history beyond the nation state trying to reconcile national and supranational interests and values – EU’s motto is: “Unity in diversity”, in varietate concordia. The common currency and a common trade policy have not been met by a common foreign and security policy, or a common tax or immigration policy. The EU project is still in the making. The EU is a controversial political economic entity facing challenges as showed by the events in its recent past: the failed constitutionalization process; the eurozone debt crisis; Brexit; and the immigration crisis. **FIRST YEAR PROGRAM**

**FS 283 – SPECIAL TOPIC: FOOD GEOGRAPHY**

What does our food tell us about our culture and society? Do different cuisines make a difference in our diet and our society’s health? How does our food impact our environment and our future? What is the Mediterranean difference? What is the difference in food production and consumption across the world? This course seeks to explore the geographic culture of food and its reflection of societies around the world, with a focus on the Mediterranean experience. We will begin with a brief history of food, why we eat, and what we eat where. We will look at cultures geographically through their agriculture and food, especially exploring the diverse Mediterranean traditions as an example of differences in food culture across space. Lastly, we will look at trends, issues, and sustainability in food production worldwide, using geographic tools such as computer maps and GIS. We will examine how the Italian approach can contribute to agricultural conservation and food security. Field trips may include a tour of an organic agriturismo and a visit to the Food and Agriculture Organization of the United Nations (FAO) in Rome. Food is an expression of a society’s traditions and way of life. High-quality food and reliable food supplies are not just a matter of survival, but are key in allowing a society to be active, productive, and secure. Bringing a Geographical approach to the study of food culture and production allows a global understanding of agricultural methods, climate and environmental influences, cultural connections, and economic trends.

3 credit hours.

**FS 301 – FOOD AND THE ENVIRONMENT**

Can we achieve sustainable diets for a healthier environment, healthier citizens and greater food justice? This multidisciplinary course addresses the sustainability challenges faced by our current food production system and consumption practices. In addition to the analysis of the world food situation with rising population, malnutrition, persisting undernourishment and environmental problems, the course will also examine the psychological, social and cultural determinants of food consumption patterns and practices. The regulatory frameworks, institutions and policies - at international national and sub-national levels - to address the long-term sustainability of the current food production and consumption will be reviewed.

**FS 302 – FOOD, LOCAL IDENTITIES AND SUSTAINABLE DEVELOPMENT**

The course explores the role of food in rural development, acting as a catalyst of actions and processes that are based on food production but that also involve preserving the cultural landscape, managing the environment, contributing to food security, to employment opportunities and to economic development. The valorization of local food supply chains, with the associated identity values and potential for market development will be analyzed and discussed through case studies based on Italy and on the European Union, but also on extra-European countries, in the broader context provided by global markets. Cases will also be illustrated on how globalization, the increase in urbanization and the demands placed on rural areas by urban consumers are contributing to transforming rural environments and communities, thus blurring the divide between rural and urban areas as well as between local and global. The course includes a fieldtrip.

3 credit hours. Pre-requisites: 200 level course in International Relations or Economics or Management or Marketing or Political Science; Junior or Senior standing or permission of the instructor.

The topic will be decided in collaboration with the Advisor and instructor. Students will develop a goal statement for the independent study, the related learning objectives, the timetable for completion, a preliminary list of readings and the final product. This could be a research-based paper or it might be a written paper that accompanies a technical project (e.g. a video or other digital media communication). In addition to the final product, students will keep a journal of the work undertaken, commentary on readings and results of the independent study. Independent study requires approximately 135 hours of learning activities and it will involve a schedule with number and frequency of contact hours between the student and the supervisor.

Major events and periods in Western military history are used as a repertory of case studies to address some of the most challenging questions surrounding war. INTERNATIONAL AFFAIRS

ARIA 310 – ARCHEOLOGY AND POLITICS
The course explores the relation between archeological practise and domestic and foreign policies of states and International Organisation. The study of the relations that occur between archeology and politics provides the students with a framework of knowledge in the field of archeology, history, politics and relevant social sciences and the knowledge of theory and the analytical ability to put it into comparative context. Emphasis is given to the activities and the role of international institutions like UNESCO, WHC and different national research institutions (e.g. the DAI Deutsches Archäologisches Institut, the British School at Rome, etc.) that are active in foreign countries. The course focuses on specific areas of Europe, Mediterranean area and Near East. The use of archeology in national and transnational identity building and international relations is analyzed and correlated to the most influential and popular archeological theories and their reception in society. Particular attention is given to the role of the media in disseminating archeology to a public of non-specialists. Through the study of several case studies the different types of relation between archeology, politics, media and society are analyzed enabling students to develop a critical approach to the subject. IA 100 – INTRODUCTION TO INTERNATIONAL RELATIONS: HISTORY AND CONCEPTS
For many years, it was argued that IR was a branch of Political Science concerned with the ‘international’ rather than the ‘domestic’ sphere of political life. According to most descriptions, the ultimate raison d’etre of IR was to explain why wars happened and how peace could be sustained over time. The main subjects were states, and the focus was on dynamics between states in an anarchic world. The modern study of IR incorporates, inter alia, many different actors, not just states (e.g. International Organizations, Non-Governmental Organizations, Multi-National Corporations, Social Movements, Civil Society); the study of the environment; the emergence of an international human rights regime; the reasons for state failure; the degree to which globalization as a phenomenon is altering the structure of international society; and, increasingly, the sources of disorder in an age of international terror; hegemony versus multipolarism. Students will be able to debate concepts like: balance of power, collective security, international legal arrangements, and globalization. This course is both an introduction to International Relations and a useful transmission belt to those going on to study IR after their first year. The course fulfills information technology and oral presentation requirements.
3 credit hours.

IA 200 – INTERNATIONAL RELATIONS: THEORIES AND CASES
This course complements empirical knowledge acquired by students in the IA 100 course. It consists of in-depth study of main theories of international relations: realism, liberalism, Marxism, constructivism, feminism, and post-structuralism as well as using these theories to explain political concepts and look at specific cases in contemporary politics. Beyond application of theoretical frameworks to current affairs students will learn how to criticize existing theories and how political science concepts evolve and change due to changing international context.
3 credit hours. Pre-requisites: IA 100.

IA 201 – GLOBAL POLITICS
The changes in world politics over the last 15-20 years have been both sudden and dramatic. This course provides the students with diverse conceptual frameworks for understanding the current transformation of global politics. How basic political science concepts (like state, power, political movements, governance) need to be readdressed in light of these changes will be discussed. The current stage of globalization will be explored by historical comparison with earlier periods of political integration and disintegration, going back to Antiquity.
3 credit hours. Pre-requisites: IA 200.

IA 202 – INTERNATIONAL ORGANIZATIONS
This course explores the functioning of international organizations in today’s world. It analyses 1) the meaning, the origins and the actors of global governance and the reasons why it is increasingly needed; 2) the centerpiece of global governance: the United Nations; and 3) the evolution, the role, the purposes and the impact of regional and sub-regional organizations active in Europe, Africa, the Americas, Asia and in the Middle East. The course will also address a number of cross-cutting issues and challenges whose resolution require a global approach, and will, finally, discuss the role played by IOs in securing international peace and security.
3 credit hours. Pre-requisites: A lower-level Political Science course or permission of the instructor.

IA 203 – U.S. AND EUROPE SINCE 1945
This course examines U.S. influence in the reconstruction of Europe after WWII, the Marshall Plan and the development of the idea of European integration, the U.S. as a world power with a permanent military presence in Europe, and the birth and evolution of NATO. Students will also analyze tension over decolonization in Suez, ‘the Special Relationship’ between the U.S. and Britain, tension with France and harmony with Germany, the end of the Cold War, the new EU and the new NATO. Evolution of Transatlantic relations after September 11 and during and after the second war Gulf War will also be examined.
3 credit hours. Pre-requisites: Lower level POL, IA, HST or permission of the instructor.

IA 301 – COMPARATIVE FOREIGN POLICY
The course examines the complex interplay of multiple factors that influence foreign policy choices in different countries. It also looks at leaders’ personality and their perceptions, domestic and international constraints of state actors and the balance of power in the international arena. To gain insight into how individuals ponder options and take decisions, how states engage with others and how the international system impacts on the interaction between states, three levels of analysis will be used: the individual, the state and the international system levels of analysis. This theoretical framework will then be applied to a collection of case studies allowing for a comparative analysis of countries’ foreign policies.
3 credit hours. Pre-requisites: A lower-level Political Science course or permission of the instructor.

IA 303 – THE US, THE EU AND CHINA: WHO IS GOING TO LEAD?
This 3-credit course is an advanced course of International Relations where students will learn how to apply Theories of International Relations to critically analyze contemporary global affairs between the US, the EU and China. Will these global actors try to use increasingly power politics or institutional cooperation? Will they be able to write together the rules of the Game? The US, the EU and China might recur to different policies and strategies depending on the circumstances and prevailing ideologies. Accordingly, the future of International Relations can be mapped in four scenarios: 1. Each global power tries to undermine the others, i.e. Everyone goes alone = mistrust and anarchy; 2. A coalition between the western powers, i.e. The US and the EU against China = instability; 3. The China Age, i.e. threat for Western powers; 4. The construction of an effective multi-polar world, i.e. The US, The EU and China = equilibrium.
3 credit hours. Pre-requisites: Junior standing IA 200 or equivalent.

IA 304 – SECURITY AND ENERGY IN THE XXI CENTURY
This is an advanced IR course focused on the relation between security and energy supplies, with a particular focus on three major global actors: the US, Russia and Turkey in order to assess how they interact in the South-Caucasus. Assessing the evolution of theory and practice of national security in the last twenty years, this course will illustrate the concept of energy security and its implications on States’ behavior. In particular, the policies of Russia, Turkey and the US will be investigated as well as how the State control - or influence - over some key strategic resources and areas is crucial in the XXI century international scenario. The approach will be comparative and diachronic. In particular, illustrating the relevance of the Caspian region into different eras, students will learn to critically analyze the interactions among major, middle and local powers and how material factors (i.e. geography and the control over strategically relevant resources) affect international politics.
3 credit hours. Pre-requisites: IA 200 or ECO 211 or equivalent or permission of the instructor.
IA 305 – INTERNATIONAL RELATIONS OF EAST ASIA
This course examines the nature of international relations in East Asia. Particular attention will be devoted to the positions occupied by Japan and China in the context of the Cold War, as well as to their interactions both with the other regional actors, the two Superpowers and Europe. The analysis of the factors which were generated during the phase of bipolarism will facilitate the identification of continuity and discontinuity lines in the light of globalization.
Topics will include: (1) the historical development of international relations in East Asia since the mid 19th century, (2) WWII and its legacy, (3) domestic institutions and foreign policy outcomes, (4) regional security issues, (5) regional economic relations, and (6) the implications of these issues for the United States.
3 credit hours. Pre-requisites: IA 200.

IA 306 – INTERNATIONAL CRIME AND GLOBAL SECURITY
The course will examine international crime and the security issues related in today’s world. The course focuses on the global crime threat and how transnational crime impacts on the political, economic and social security dimension. The course will discuss the patterns and effects of a diverse range of players and organizations in illicit criminal activities, and the response of the major international actors (e.g. the US; other major nation-states; International Organizations as well as international criminal justice authorities) to the worldwide criminal threat.
3 credit hours. Pre-requisites: Junior or senior standing or permission of the instructor.

IA 307 – INTERNATIONAL HUMAN RIGHTS
A growing number of international conventions impose human rights obligations on States parties. They also assign to the so-called treaty bodies, as well as to regional courts, the task of ensuring compliance with human rights standards. As of 2006, the UN Human Rights Council monitors respect for human rights by member States. Since the 1990s, the human rights regime has been enriched by its encounter with criminal justice while non-state actors, such as NGOs, play an increasingly relevant role. The course, through an illustration of the general framework as well as an analysis of selected issues, is aimed at understanding how human rights have become a part of the legal system of the international community.
3 credit hours. Pre-requisites: IA 100 or permission of the instructor.

IA 347 - FRANCE: ALIGNING/DIS-ALIGNING WITH POPULIST TENDENCIES IN THE EU?
The 2017 elections in France have brought to light the deep social divides within French society and illustrate a developing trend towards nationalism in global politics. As one of the founding fathers of the process of European unification, France has historically acted as a strong driving force of deeper EU integration at the economic and political level. Challenges in the mature western democracies – e.g. 2008 economic and financial crisis, 2009 Eurozone debt crisis, the Paris attacks in 2015, the immigration crisis, Brexix (2016), and the US elections (2017) – have caused an unprecedented rise in conservative ideologies that question the legitimacy of the EU. French people’s enthusiasm and support for the project of the European Union have tarnished. The EU has two main roads in front of it: 1) get smaller and deepen integration; 2) slowly break up. The road of the original founding members (i.e. France as one of them) will be a key turning point. Either way, certainly France’s domestic politics and the increasing role of nationalist sentiment will have a fundamental role in the future of the EU.
1 credit. Pre-requisites: IA100 or POL101 or permission of the instructor. Students will pay a fee to cover the cost of the field-trip.

IA 348 - BERLIN: NATIONAL VS EUROPEAN VISION
Germany’s economic and political relevance in the European Union (EU) gradually increased over time, especially compared to the early stages of the European Economic Community. The unification process of East and West Germany, the weight Germany’s economy (both in absolute terms and compared to the other single members), and the fact that Germany is the most populous EU country, all contributed to a tremendous increase of the role of the country in the EU over time. Germany is the de facto hegemon within the EU, but a reluctant hegemon. Germany is in a unique position within the EU: stuck between EU Member States who expect Germany to be the country imposing the respect of the Treaties (e.g. monetary policy), and EU Member States who oppose Germany’s tight rule-based approach. The latter argue that a greater political vision and understanding of the project that has promoted peace and unity in the continent since the end of WWII needs to be adopted for the EU to survive, while the former think that there cannot be any EU without a strict rule-based system to guard the enforcement of the Treaties with so many member states. Germany on its part might seem more focused and concerned on its own national interests.
1 credit. Pre-requisites: IA100 or POL101 or permission of the instructor. Students will pay a fee to cover the cost of the field-trip.

IA 349 – BREXIT: THE UK AND THE EU AFTER THE VOTE
The United Kingdom (UK) voted to exit the European Union (EU). Brexit had an impact on the global economy, and the sterling went down to its lowest level since 1985 vis-a-vis the US dollar. Brexit will strengthen the appeal of national right wing parties across Europe, which are already calling for other Referenda to be held (e.g. France). Brexit is yet another crisis for the EU, after the most recent ones: Greece, migrants, Libya, Syria, and Russia.
1 credit. Pre-or-co-requisites: A lower-level Political science or European history course. Students will pay a fee to cover the cost of the field-trip.

IA 355 – NORTHERN IRELAND: CONFLICT AND CONFLICT RESOLUTION
This field study course examines the history and contemporary reality of Northern Ireland, one of Europe’s most long-standing and intractable issues of sectarian violence, nationalism and separatism. The almost 40 years since “the Troubles” began illustrate the changing relationship between the United Kingdom and the Republic of Ireland with influence from the United States and the European Union. There has been military intervention, a wide variety of attempted law enforcement solutions, laws, social and economic initiatives. The course consists of a long weekend field study trip to meet with representatives of the political institutions and parties, civil society, the Churches and the media. The on-site component includes cultural encounters and informal meetings to enhance the learning with preparatory and concluding sessions in the classroom.
1 credit. Pre-requisites: A lower-level Political Science or European history course. Students will pay a fee to cover the cost of the field-study trip.

IA 356 – BRUSSELS: INTERNATIONAL ORGANIZATIONS AND INTERNATIONAL RELATIONS
The trip takes two very different looks at international relations; before leaving, there will be a class introducing the basic structure of the IGOs visited. On the first day of the trip students see the formal side and visit two key international organizations, the European Commission and NATO. They are given briefings on topical issues facing the organizations and the responses which are being formulated to address the issues. There are informal meetings representatives of Brussels’ political organizations, from some of the many parties present at the IGOs. On the second day, they visit some of the key political sites in the city and the museum and battlefield of Waterloo. There is a final classroom session to draw conclusions from the trip.
1 credit. Pre- or co-requisites: A lower-level Political Science or European history course. Students will pay a fee to cover the cost of the field-study trip.

IA 357 – MONTENEGRO: NATION BUILDING AND INSTITUTION BUILDING
This field study course examines the history and contemporary reality of Montenegro, the UN’s most recent addition as a sovereign nation-state. Over the last century, Montenegro has gone from independence to foreign control to being part of changing versions of a South Slav state before becoming independent again. It avoided the worst violence of the break up of Yugoslavia in the 1990s but suffered from the economic and political instability and the growth of criminality that the wars provoked. It now seeks greater integration with the EU. It is also a small country so that all of these issues can be addressed in a short field trip course.
1 credit. Pre-requisites: A lower-level Political Science or European history course. Students will pay a fee to cover the cost of the field-study trip.

IA 358 – POLITICS AND SEPARATISM
This course examines the history and contemporary reality of one of Europe’s most long-standing and intractable issues of nationalism and separatism. POL 321 – TERRORISM AND POLITICAL VIOLENCE

Political violence has always been present. Sometimes it is expressed as a formal war between clearly defined combatants for clearly defined aims; more usually the aims are mixed and the methods and targets even more muddled. It is essential to understand these distinctions, moral, legal, political and practical in order to understand wider political practices both between nation states and within them. Since 1945, there have been almost no “wars” in the traditional sense of the word and very few which approximate to wars between states. Future wars are more likely to be between ill-defined protagonists and since 11 September 2001 and the US’s “war on terrorism”, it has become even more important to understand the roots, aims, morals, ethics and techniques of political terrorism and all forms of political violence.

PSY 383 – SPECIAL TOPICS: MADNESS AT THE MOVIES
What is it to be “mad”? In their tales of horror, suspense, comedy, or drama movies have occasionally given us vivid portraits of madness, of extreme mental illness. How close to reality do these films come; how accurate is their picture of madness? What can we learn about madness from the movies? In this course we will study closely the various forms of madness portrayed: Obsessions, Depression, Suicide, Perversions, Psychosis—as Zorba called it, “The Whole Catastrophe!” We will also look at how psychiatry has been portrayed in the movies—from magical healer to crazed, cross-dressing killer. And we will also explore how close movie therapy comes to the real thing. There are many Italian films that demonstrate aspects of madness and we will feature these in the course. Using the films as our text, we will first look at what it is to be “mad”, we will define mental illness, and then systematically look for examples of specific diagnoses and syndromes in the movies. Each film will add to the understanding of mental illness, as the student learns to read between the lines of the movie portrayals. We will end with a look at the image of psychiatrists and therapy in the movies. The course should be of interest to students of film, of psychology, and of the human condition.

Is Christianity the primary causal factor?; 3) How has the Greek tradition of erotic enquiry served modern theorists of sexuality, from Freud to Foucault?; 4) What happens to our enquiry if we shift our attention from sexuality to desire?
