## The AUR Logo

The American University of Rome's shield and logo are derived from the design of the distinctive paving pattern of Michelangelo's Piazza del Campidoglio on the Capitoline Hill in Rome. Its twelve-pointed geometry has a multitude of meanings, primary among them in this context the radiant role of Rome as the center of the world, the *Caput Mundi*, as the ancients fashioned it and as the Renaissance revived the concept. [James Ackerman, *The Architecture of Michelangelo* (1986), 166-70] Located prominently in the center the open book, a common university motif and symbol of knowledge, is inscribed with the University's year of founding, 1969 in Roman numerals. The book is encircled by AUR's motto "Inter Gentes Trans Orbem" (*"between people across the world"*) and in more detailed versions is shadowed by the architectural layout of the Colosseum. Together with the University's acronym the shield suggests AUR's place in Rome, a symbol of the millennial traditions of art, politics, science and culture that are the basis of a liberal education.

## The Alumni of The American University of Rome

The Alumni of The American University of Rome are a worldwide network of professionals who all share AUR as their common denominator.

The aim of the Office of Alumni Relations (AR Office) is to foster and enhance communication among alumni, inform alums about the University and its initiatives, organize networking events,

showcase the successes of alumni and, most importantly, facilitate connections and reconnections. With a firm belief that our community is our greatest asset, and as an integral part of the Advancement Office, the AR Office actively contributes to the university's progress through fundraising and volunteer opportunities.

### **The Alumni Council**

Consisting entirely of active alumni, the Council aims to support the university's continued growth and development, in addition to promoting alumni fellowship and philanthropy. The Alumni Council was officially launched in May 2018 with 10 members with varying backgrounds and of different graduation years. In September 2021, the Alumni Council started its second term of activity with a renewed group of active alumni.

## **FACILITIES AND ACADEMIC RESOURCES**

The University is located in a prestigious residential area of Rome, on the crest of the Janiculum, Rome's highest hill, just a few minutes' walk from the historical Trastevere district.

A computer lab, a student lounge and administrative offices are located in a four-story villa. Adjacent to the villa, a five-story building houses classrooms, faculty offices, a computer classroom, and other facilities. The terrace atop the building offers a breath-taking view of Rome. A separate two-story villa, adjacent to the main campus, houses the University library. Other campus facilities include the Auriana auditorium, the art studio, a multimedia lab and faculty and administrative offices, all walking distance from each other.

The University is located close to the renowned American Academy in Rome, opposite the beautiful *Villa Sciarra* gardens and close to the stunning *Villa Doria Pamphili* park. The ancient Roman road of *Via Aurelia Antica*, the *Porta San Pancrazio* and the seventeenth century baroque fountain *Aqua Paola* are close by.

The neighborhood surrounding AUR offers a full range of amenities including restaurants, shops, cafes and an outdoor market. Several bus lines connect it to the historic center of Rome.

The American University of Rome boasts a committed and experienced faculty, numbering over 60 professors, most of whom hold advanced degrees in their respective fields. Most full-time faculty have doctorates or terminal degrees in their disciplines. At AUR, each professor works closely with students, and contributes to the wider AUR community.

Each class at AUR is led by one of our experienced faculty members and is small enough to ensure personal attention for each student.

AUR offers degree students a variety of resources for academic and personal support. Over 100 courses are available every semester across the following areas: Archaeology, Classics, Art History, Business Administration, Communication and Digital Media, English Writing and Literature, Film, Fine Arts, International Relations, Italian Studies, the Humanities and Social Sciences, Travel and Tourism, as well as Mathematics and Science. Internships and independent study opportunities are also available for qualified students.

### **Evans Hall Library**

The library offers a book and online collection tailored to the requirements of the degree programs offered by the University. The collection has been carefully developed in collaboration with the faculty. The state-of-the-art online catalog allows users to search and locate books, articles, and a vast array of electronic resources efficiently. The library's physical holdings are supplemented by a number of electronic resources and sizeable libraries in Rome.

The University curriculum increasingly uses multimedia resources for the classroom. The library provides a collection of DVDs and videos.

Students can also enjoy a quiet study lounge for their work and research. The library facilities are complemented by a number of services including borrowing privileges, inter-library loans and a reserve collection. Our library staff is committed to high standards of library excellence and, to that end, offers a series of information literacy workshops and participates in foundational skills seminars every semester.

- Microsoft 365 Apps: AUR students have free access to the Microsoft Office Apps (downloadable on multiple devices) including OneDrive for cloud storage, which provides over 1TB of

storage space.

- AUROne: AUR's search utility allows students and faculty to search and locate AUR resources using a simple Google-type interface. By entering search terms, users are taken directly to the resource.
- Canvas: AUR uses Canvas as the online course management system, giving students an enhanced learning experience. Through Canvas students have access to course communication tools, discussion forums, course announcements, online tests, assignments, handouts and an electronic gradebook allowing students to monitor their course progress. An overview of Canvas is given to degree seeking students and to new faculty during their IT orientation. Additional training is available on request.
- MyAUR: MyAUR is the AUR community portal. Students have access to their academic information including course registrations, degree program information, online advising capabilities, unofficial transcripts, online registration and online add and drop. Faculty have access to their course teaching schedule, classroom assignments and downloadable academic forms policies. Alumni have access to their unofficial transcript and extra alumni features. In addition, MyAUR provides users with up-to-date announcements, campus events information, academic calendars and an online course/syllabus search engine.
- Printing/copying cards: academic printing and copying is available from different locations on campus. Copiers/printers are available for faculty and students to use in the Building A computer lab, the Evan's hall library and the faculty lounge. All copiers/printers are connected to a print management system and can be accessed by swiping your AUR security badge. Further information can be found on the boards above each copier/printer or on the Helpdesk tab of MyAUR (requires login).
- Training Program: the Office of Computer Services works to offer faculty and students workshops and training on the various information and technology services at AUR. Most faculty training is conducted through the Faculty development program offered regularly throughout the semester. Department training is also available and coordinated with the Program Director.
- Wi-Fi: Wi-Fi is available from any location on campus including classrooms, the Evan's Hall library, the main office building, Auriana Auditorium, and outdoor locations such as garden and terraces. A single SSID gives users seamless access to Wi-Fi on campus.

## STUDENT LIFE

### Student Life Office

The Student Life Office is the heart of student life at The American University of Rome. Our office strives to complement the academic mission of the University by providing and supporting opportunities for learning through extra-curricular activities. The activities and facilities of the Student Life Office promote students' personal growth, leadership development, social responsibility, multicultural awareness and intellectual inquiry. The Student Life Office staff is committed to providing superb service in an engaging environment to encourage student participation in formal and informal activities. The Student Life Office assists students with non-academic issues, encourages their participation in Italian culture and daily life and supports their social life both on and off campus. It plays an active role in bringing a wide variety of events and activities to students.

### Health and Well-Being Resources

The American University of Rome is committed to promoting health and well-being, in a caring and confidential manner, for all AUR students. The following resources are available:

**Health Services** – The Student Handbook provides detailed information on obtaining the appropriate health care services in Italy. There is a doctor on campus, available by appointment and free of charge to students. The Student Life Office also maintains a list of English-speaking doctors and dentists that students may consult. In case of an emergency, an ambulance will take the student to the nearest emergency room and if hospitalization is necessary, patients will be placed in the hospital best equipped for the particular illness or injury. If a student requests to be placed in a private hospital clinic, appropriate arrangements can also be made. All students are required to pay in private hospitals and clinics and are issued receipts for insurance reimbursement.

**Mandatory Health Insurance** – All non-Italian AUR students are required by Italian law to have a valid health insurance plan for the duration of their studies in Italy. Typical health plans from the US or other home countries do not cover the requirements.

To facilitate access to the type of insurance required, we strongly recommend students take advantage of the favorable terms and comprehensive coverage that our partner CISI (Cultural Insurance Services International) has put in place for you.

The CISI Plan has been designed specifically for students studying overseas. Not only does the plan provide accident and sickness insurance, but it also covers mental health, medical evacuation, and repatriation as well as security evacuations should they become necessary.

In addition to the above, the AUR student insurance plan covers users for all areas outside the United States and provides students with a worldwide, 24-hour emergency telephone assistance service.

US residents, please note: this is NOT a replacement for your home-based comprehensive health insurance. This is a supplement that will cover you while you study in Italy - do not give up any insurance that you already have for coverage in the States.

With 24/7 emergency operators standing by, you can consult with CISI on their coverage for pre-existing conditions, emergency repatriation, specialist medical visits, prescriptions, physical therapy, and more. CISI also covers mental health concerns and "Trip Delay" benefits. CISI will even cover the cost to fly a parent or guardian to your current location during a health emergency.

**Psychological Counseling** – The American University of Rome provides its students with free, confidential psychological services. Certified counselors give routine, non-medical

counseling to students by appointment. Detailed information on this service can be found in the Student Handbook and on appropriate bulletin boards on campus. A psychiatrist is also available by appointment and free of charge to students for prescribing and monitoring medications. Medications commonly used in the U.S. for ADHD/ADD treatment are not available in Italy. Students should hand carry enough medications for their entire stay together with their doctor's prescription for the amount of medications being brought into Italy. Both mailing and receiving shipments of stimulants is illegal; shipping these medications from the U.S. to Italy can be charged as a criminal offense.

**Safety and Security** – Emergency phone numbers are located in the Student Handbook, posted in all AUR Student Housing apartments, and a card with all emergency numbers is provided to students upon arrival. If an emergency situation occurs it is critical that the appropriate emergency services be contacted first. In the event of a true emergency after-hours, AUR maintains an emergency number printed in the Student Handbook and answered by a University official.

In the event of student illness or injury, depending on gravity, the first action is to call emergency services (112) or proceed to the appropriate medical center. The staff on duty manning the emergency phone will be available if further assistance is needed. In such an event, an AUR staff member will advise the home university and/or the study abroad office. Within legal constraints, parents, guardians and the emergency contact will be contacted. Additional assistance is provided in the event of a medical evacuation. For non-emergency situations the Student Life Office can be consulted during normal business hours.

### **Money and Banking**

Students should plan to have access to enough money for meals, beverages and snacks, trips, sight-seeing, restaurants, theaters, concerts, films, art galleries, souvenirs and local transportation. An estimated cost of attendance and living budget can be found on the website. ATM machines are widely available in Rome and most Italian cities. Money can be exchanged into Euros at Currency Exchange Offices in the city center. Many hotels, stores and restaurants accept credit cards. The University cannot cash or guarantee personal checks. Students can open a bank account in Italy only after receiving an official permit to stay.

### **Housing**

Students may elect for The American University of Rome to arrange housing on their behalf or may choose to make their own housing arrangements in private apartments. The American University of Rome takes great pride in providing students with safe, comfortable living environments. All students opting for university housing are provided with fully furnished apartments in areas surrounding the campus for a “full immersion” cultural experience. Most apartments have 2-3 bedrooms, lounge, kitchen and bathrooms. Bedrooms are typically double-occupancy with a few triple or single occupancy depending on the size of the room. Each apartment is equipped with basic furnishings and supplies, including one single bed per student, bed linens and towels, closet/clothing storage space, typical basic Italian cookware and kitchenware, a table and chairs and furnished sitting area. Desks are to be shared by all occupants.

### **Student Government**

The American University of Rome Student Government (AURSG) is elected to represent the student body. It is a great way for students to contribute actively to the growth and development of the University. Student Government representatives participate in regular meetings with the administration and faculty and serve on the Curriculum, Library and Academic Fairness committees. Only students in good academic standing are eligible to hold office in the student government.

## **Student Conduct**

The American University of Rome, as a university dedicated to promoting the intellectual and social growth of its students, obliges students to respect one another and behave in a decorous manner both inside and outside the University. The President of the University has the authority to discipline or to dismiss any student who is in violation of the laws of the Republic of Italy or whose conduct violates the rules and regulations of the University. Detailed information on the student code of conduct and other relevant policies, can be found in the Student Handbook.

## **Athletic Facilities**

In an ongoing effort to provide opportunities to keep (or get!) fit, AUR has an agreement with a local gym (palestra) for students to use its facilities. For full time AUR degree-seeking and English Language Program students, AUR provides free gym membership. For all other students in attendance at AUR, Student Life has obtained a special discounted price for each academic semester; interested students should pay and enroll directly at the gym.

## **Athletic Programs**

The American University of Rome is a founding member of both the male and female Universities of Rome Soccer, Basketball and Volleyball Leagues. For a full list of other sports activities offered at AUR, please see the AUR website - Student Life page.

## **SPECIAL PROGRAMS**

The American University of Rome offers various credit and non-credit programs to meet the educational needs of the local and international community. Members of the community are welcome to enroll in the University's regular and special courses. All courses (except Italian language courses and some advanced Italian literature and culture courses) are conducted in English.

## **Summer Sessions**

During AUR summer sessions students typically complete between six and twelve credits towards their undergraduate degrees. The AUR Summer sessions are open to degree and study abroad students. For more information please visit our website: [www.aur.edu](http://www.aur.edu).

## **Career Development and Internship Office**

The American University of Rome supports students in bridging the world of academia and the world of work through the AUR Career Development and Internship Office. The university maintains a wide network of partner organizations, public and private, where AUR students in their junior or senior year can do for-credit internships during the semester or summer. The same is true for second semester study abroad students. During the fall and spring semesters, an internship course is offered which addresses a series of career skills. The office provides students with one-on-one attention and advice as they craft their resumes and research their fields of interest. The AUR careers and internships community portal is regularly updated with full and part-time job opportunities as well as information about available internships. The office provides resources such as student internship portfolios to consult, handouts regarding skills, values and sample resumes, as well as books on career related topics.

## **Internship Program**

The American University in Rome maintains an active internship program in Rome. The idea behind an internship is to provide students with targeted work experience so as not to have to enter the work force upon graduation with no related skills in their chosen field. It also affords the chance to evaluate different career paths in depth and in person. Students are given a chance to prove their initiative, reliability and responsibility all the while putting into practice concepts that they have learned in their courses. Internships are a joint opportunity for students to acquire

new skills and for companies to benefit from the students' diverse skill sets and cutting-edge knowledge. Students carry out structured work experiences in companies or organizations which they believe will enhance their academic, professional and personal development. To receive academic credit, students will take an internship course (INT 450) which further prepares them for the world of work via a series of workshops and a final academic assignment. Through interactive exercises students learn about researching jobs, networking, interviewing skills and resume preparation. These exercises give students a chance to hone their skills and receive input. Requirements for site placements are 135 hours over a span of time and in a format to be decided by both the student and the site supervisor. Internships may be carried out either in the fall, spring, j-term or summer semester. To apply for an internship, applicants must be enrolled as full-time AUR degree seeking students or as two-semester study abroad students in good academic standing (GPA 3.00 or above) and have Junior or Senior standing. A formal agreement between AUR and the internship site organization is required before a placement can begin. A student may complete a maximum of two internships for academic credit.

Students on federal aid are strongly advised to choose an internship outside the U.S. as U.S.-based internships may jeopardize federal aid eligibility. Contact the Associate Director of Financial Aid ([financialaid@aur.edu](mailto:financialaid@aur.edu)) regarding federal aid and internships.

### **Academic Support Services**

The following academic support services are available to students at AUR:

- The **Math Helpdesk** is organized to assist students enrolled in mathematics courses. Drop-in sessions are held throughout the semester.
- The **Writing Center** helps students in all disciplines become more effective and confident writers. Meetings with students are on an individual basis to address specific writing issues and problems such as developing a strong thesis, collecting ideas, developing thoughts, organizing paragraphs, incorporating secondary sources, revising, and editing. Faculty and graduate student tutors work together to improve students' critical reading, thinking and writing skills to more effectively meet their academic requirements.  
To book appointments: <http://aurwritingcenter.simplybook.it/sheduler/manage>
- The **Italian Helpdesk** is available throughout the semester to support students in all levels of Italian language study.

### **Study in Italian at LUMSA (Libera Università Maria Ss. Assunta)**

An agreement with the Libera Università Maria Ss. Assunta in Rome allows AUR students to attend a course at LUMSA delivered in Italian, choosing from a list of available courses taught in the fall and spring semesters. Students who take a LUMSA course and pass the final examinations earn three credits toward their AUR degree. For further information on this study opportunity and a list of available courses contact Professor Catherine Ramsey-Portolano ([c.ramsey@aur.edu](mailto:c.ramsey@aur.edu)). Students should discuss appropriate LUMSA courses with their advisors.

Training hours can range between 5-20 hours a week and are for the academic year. Graduate students are recommended to consider a maximum of 10 hours per week due to rigorous coursework.

First year students must complete at least one semester at AUR before applying for a training position, this does not apply to transfer students.

AUR's school code for the FAFSA is G31025.

**The American University of Rome Enrollment Status for eligibility and reporting for US Title IV funds policy**

To be eligible for US Title IV funds a student must be enrolled at least half time (see below for more details). ‘Audit’ courses, courses that are not matriculating to your degree and some remedial courses do not count. The reported status for the three enrollment periods is determined as follows:

Fall and Spring		Summer	
Enrolled Credits	Enrollment Status	Enrolled Credits	Enrollment Status
12+	Full-time	6+	Full-time
9 - 11.99	Three Quarter-Time	3 - 5.99	Half-time
6 - 8.99	Half-time		
Less than 6	Less than Half-time		

**Title IV Satisfactory Academic Progress**

Federal regulations (CFR 668.34) require institutions of higher education to establish, publish, and regularly apply standards of Satisfactory Academic Progress (SAP) for Federal Student Aid (Title IV) eligibility.

According to federal regulations (CFR 668.34), students must maintain Satisfactory Academic Progress (SAP) in order to be eligible for any Federal Student Aid (Title IV). All students must meet the following minimum standards of academic achievement and successful course completion to maintain their Title IV eligibility. The student's progress will be evaluated at the end of every semester (including summer and winter sessions). Please note that these criteria do not replace the University's set of policies regarding Satisfactory Academic Progress, but they do apply to students who are enrolled in AUR's undergraduate programs and partake in Title IV student aid program.

### Grade Point Average (GPA)

1. The student must have a cumulative GPA of at least 1.50 at the end of the first academic year or after completing at least 25 credits.
2. The student must have a cumulative GPA of at least 2.00 at the end of the second academic year (or after completing 60 credits) and thereafter.

### Pace of Completion

The student must complete at least two thirds (67%) of the attempted courses each semester.

### Maximum Time Frame

The maximum time in which a student is permitted to complete a degree while maintaining Title IV eligibility is 150 per cent of the published program length. The maximum time frame depends on whether the student is full-time or part-time.

Example: If the published program length is 4 academic years, the maximum time to complete the program is 150% of 4, or 6 years total.

### Warning Period

The student's progress is evaluated at the end of every semester (including summer sessions). If it is found that a student receiving Title IV aid does not comply with the above listed standards, they will be notified of the Federal Aid Warning in writing for the subsequent semester. During that semester, the student will still be eligible for Title IV aid. However, if at the end of the warning period the student still fails to meet the standards, they will lose Title IV eligibility. The student can then appeal the decision to be considered for Federal Aid Probation in which the student can continue to receive US federal loan eligibility if the appeal is approved.

### Appeal and Probation

A student may appeal their loss of Title IV eligibility. They must submit the appeal within two weeks after the last day of classes of the semester. The appeals committee will meet and relay the decision to the student within one month after the submission of the appeal. The appeal committee may determine that the student may be placed on Title IV probation for an additional semester if they decide the student will be able to meet the school's satisfactory academic progress requirements by the end of the subsequent term.

### Regaining Eligibility

Students who failed to maintain eligibility may regain their Title IV eligibility through the appeals process (as described above) or by meeting the Satisfactory Academic Progress standards.

### Incompletes, Withdrawals, Transfer Credit

- If a student receives an incomplete or if they withdrew from a course, the credits will be counted as attempted but not completed.
- Noncredit courses will not be counted as attempted or completed.
- Transfer credits are counted as attempted and completed.

### Return of Title IV Funds

If a student (undergraduate or graduate) withdraws from AUR and has received financial aid, the student will be expected to pay back the amount of the financial aid that was not earned. The amount that students must return is determined on a proportional basis up to 60% of the entire term. If the student completed 20% of the term, the student has earned 20% of the total aid scheduled to be received. If a student completed more than 60% of the term, they have then earned all of their financial aid.

The withdrawal date is the date you inform the University you have chosen to withdraw. The Registrar's Office keeps this date and it is used to calculate the amount of financial aid that must be returned.

Funds must be returned in the following order:

1. Unsubsidized Federal Direct Stafford Loans
2. Subsidized Federal Direct Stafford Loans
3. Federal PLUS Loans received on behalf of the student or in the graduate student's name

Below are two examples of the calculations used to find the amount a student is expected to repay based on the date they withdrew:

#### Example 1

Remus withdrew from AUR on January 30th. The term he withdrew from began on January 5th and lasted 70 days. Remus has attended 26 days and has therefore earned 37 percent of his financial aid (26 days divided by 70 days equals 37 percent).

Remus received in aid:

\$1000 Unsubsidized Federal Direct Loans

\$3500 Subsidized Federal Direct Loans

\$4500 Total aid received

1. The amount of aid earned is  $37\% \times \$4500 = \$1665$
2. The amount of unearned aid is:  $\$4500 - \$1665 = \$2835$
3. Remus was charged \$2500 in tuition. Percentage of his unearned aid is:  $100\% - 37\% = 63\%$ . Therefore,  $\$2500 \times 63\% = \$1575$
4. The amount Remus must return is the lesser amount of steps 2 and 3; therefore in this case it is \$1575.
5. Going by the order of funds to be returned, Remus would return first unsubsidized loans, and then subsidized, and finally Parent PLUS loans, until the total \$1575 has been repaid.

Unsubsidized Federal Direct Stafford Loans:  $\$1000 - \$1000 = \$0$

Subsidized Federal Direct Stafford Loans:  $\$3500 - \$1575 = \$1925$

Total Returned \$1575

The total returned is the amount that will be billed to Remus's student account from his aid.

#### Example 2

Romulus withdrew from AUR on January 20th. The term he withdrew from began on January 5th and lasted 70 days. Romulus has attended 16 days and has therefore earned 23 percent of his financial aid (16 days divided by 70 days equals 23 percent).

Romulus received in aid:

\$500 Unsubsidized Federal Direct Stafford Loans

\$4500 Subsidized Federal Direct Stafford Loans

\$5000 Total aid received

1. The amount of aid earned is  $23\% \times \$5000 = \$1150$ .
2. The amount of unearned aid is:  $\$5000 - \$1150 = \$3850$ .
3. Romulus was charged \$1250 in tuition and \$1000 in housing. Percentage of his unearned aid is:  $100\% - 23\% = 77\%$ . Therefore,  $\$2250 \times 77\% = \$1732.50$ .
4. The amount Romulus must return is the lesser amount of steps 2 and 3; therefore in this case it

is \$1732.50.

5. Going by the order of funds to be returned, Romulus would return first unsubsidized loans, and then subsidized, and finally Parent PLUS loans, until the total \$1732.50 has been repaid.

Unsubsidized Federal Direct Stafford Loans:  $\$500 - \$500 = \$0$

Subsidized Federal Direct Stafford Loans:  $\$4500 - \$1232.50 = \$3267.50$

Total Returned \$1732.50

The total returned is the amount that will be billed to Romulus's student account from his aid.

### **Refund Policy for Financial Aid Students**

For any Title IV aid recipient terminating his or her program of study after entering the institution and before completing at least 60% of the payment period, the statutory Return of Title IV Fund policy will be implemented. This policy will calculate the amount of financial aid funds earned by the student during their enrollment.

The American University of Rome will calculate the amount of Title IV aid that was earned based on a payment period basis. The institution will determine:

- The Title IV aid disbursed or that could have been disbursed.
- The percentage of Title IV aid earned by the student.
- The amount of Title IV aid earned by the student.
- The total Title IV aid to be returned or disbursed as a post-withdrawal disbursement.
- The amount of unearned Title IV aid to be returned by the school.
- The amount of unearned Title IV aid to be returned by the student.

Institutional refunds will continue to be calculated by the payment period. The student will be responsible for any tuition, fees, books or equipment not covered by Title IV funds.

### **Aid for Veterans and their Dependents**

Please note that health insurance is a required component of the visa process refer to the 'Mandatory Health Insurance' in the Student Life Section of this catalog or visit the website: [Health](#)

Students should check with their local consulate to make sure they have all the necessary documents before presenting their application. Full-time AUR students are eligible for a student entry visa and a permit of stay. In order to enroll as a part time student at AUR, students must hold an Italian or European Union passport.

Upon arrival in Rome non-EU students will submit an application to obtain a permit to stay.

### **Placement Examinations**

Italian language tests maybe requested by students wishing to register for a course above ITL 101. Placement above ENG 101 or MTH 102 may be achieved only via advanced placement credit (AP, IB, A-level or similar) or transfer credit.

Placement in higher levels will result in waivers of basic GenEd requirements.

### **Incoming Study Abroad Students**

Students registered at other universities as degree students who wish to spend a semester, year or summer at The American University of Rome should consult with the study abroad advisor at their home institutions. AUR has study abroad agreements with many universities and colleges; if the home university does not have an agreement with The American University of Rome, the interested student may apply through providers or directly via the AUR website. Study abroad student enrollment is competitive; as such, students are encouraged to make an early inquiry and application.

### **Audit Students**

Non-degree students may register to audit a course at The American University of Rome. Students do not earn college credit for audited courses.

## ACADEMIC REGULATIONS

### Credits

At a minimum, one semester credit hour equals 15 classroom contact hours of lectures, 30 hours of laboratory or 45 hours of practicum. The majority of courses listed in this catalog carry three semester credit hours. Intensive courses worth four to eight credits and also one credit courses are available. Internships carry three semester credits and require 135 hours of work experience. Credit information on individual courses can be found below each course description at the end of the catalog.

### Course Load and Student Classification

A minimum of 12 credit hours is required to be considered a full-time student. The maximum full-time student load, except for students on the Dean's List (see the relevant '**Dean's List**' section of this catalog), is 17 credit hours. A student enrolled for fewer than 12 credit hours is considered a part-time student.

Class standing is defined as follows:

- First Year: 0-29 credit hours
- Sophomore: 30-59 credit hours
- Junior: 60-89 credit hours
- Senior: 90+ credit hours

### Course Numbers

Course numbers generally adhere to the guidelines below. Exceptions are indicated by the course pre-requisites which may require Sophomore (30 or more credits earned), Junior (60 or more credits earned) or Senior (90 or more credits earned) standing and/or permission of the instructor.

### Course Sequences and Pre-requisites

Degree students can only enroll in courses appropriate to their level of academic standing and to their major and minor areas of studies. If a course has pre-requisites, indicated in this catalog, students must ensure they have all been met prior to registration, with the assistance of their advisor. In the case that a student has not formally met the pre-requisite(s), but the course indicates students can ask permission to the instructors, s/he should send a petition to the Registrar's Office.

## **Registration**

Incoming First-Time-in-College students, as well as Transfer students, will be pre-registered for required courses according to their declared majors before the semester starts. During Orientation Week, incoming students will meet with their Academic advisors to complete and finalize their schedule.

Degree-seeking students must register online (through MyAUR) for the following semester during the registration period as indicated on the Academic Calendar. Students who register late will be charged a Late Registration Fee of 105 Euros. Students need to request approval for their course registration from their academic advisor. Registration is on a first-come, first-served basis. Spaces in courses are limited. Students have the option of wait-listing themselves online if a course is full. If and when spots open up, wait-listed students will be contacted by the Registrar's Office directly. Degree-seeking students on financial hold will not be able to register online, but should use a paper registration form, to be approved by their advisor and returned to the Registrar's Office. The student will be registered once the hold has been lifted and according to class availability at that time.

Online Add/Drop is available to students during the first week of a regular semester and during the first day of classes of a summer session. Students need to receive approval from their academic advisor for any added class.

After the Add/Drop period, no courses may be added and withdraw penalties will apply.

For courses added during Add/Drop, absences within the Add/Drop period will not be counted. The University reserves the right to alter the course schedules, should the need arise. This could include cancellation of classes due to insufficient enrollment, change of scheduled course time, instructor or classroom.

## **Academic Advising**

The academic advising program of The American University of Rome helps students define and clarify their career and educational goals and develop academic strategies to reach them.

It is the responsibility of both the student and his/her academic advisor to participate in the advising process equally. The academic advisor serves as a resource for course/career planning and academic progress review and as an agent of referral to other administration members as necessary. After consultation with his/her academic advisor, the student is ultimately responsible for choosing and implementing his/her academic program.

## **Graduate Courses for Undergraduate Students**

Undergraduate students who are classified as seniors may request to take graduate courses offered by AUR MA programs. A minimum cumulative GPA of 3.5 is required as well as approval from the undergraduate student's academic advisor and the MA program director. Such courses will count as free electives in the undergraduate curriculum. Relevant program directors may also approve such courses for credit in a major or minor.

Up to 6 credit hours of graduate work can be taken as an undergraduate and will be counted towards the undergraduate degree. Approved requests are subject to course capacity availability; enrollment preference is given to graduate students.

## **Learning Accommodations**

The American University of Rome does not discriminate based on differing abilities and is committed to providing all students with a high quality educational experience.

While not bound by the "Americans with Disabilities Act" and other legislation, the American University of Rome still makes every attempt to provide all reasonable accommodations.

Possible accommodations may include:

- Extended time for papers or projects
- Time-and-a-half for testing
- Testing with limited distractions
- Tape lectures (with appropriate permission)
- Use of a computer for essay exams

In order to request learning accommodations, the student needs to submit medical or psychological documentation, specifying detailed and reasonable accommodation(s), two weeks prior to arrival. Please note all documentation must be valid and current and issued by a licensed specialist. Please visit the AUR website for the complete learning accommodations' policies and procedures.

### **Attendance Policy**

In keeping with AUR's mission to prepare students to live and work across cultures, the University places a high value on classroom experience. As a result, attendance is expected in all classes and attendance records are maintained.

#### *The Policy*

Students must attend a minimum of 70% of a course to be eligible for a passing grade. This applies to your courses as indicated in the chart below:

<b>My course meets...</b>	<b>I will not pass the class if...</b>
... once a week.	... I have more than 4 absences.
... twice a week.	... I have more than 7 absences.
... four times a week.	... I have more than 15 absences.
... in Summer, four times a week	... I have more than 5 absences.

The table below indicates the number of allowed absences for which no penalty may be imposed, by course type:

<b>My course meets...</b>	<b>I cannot be penalized for the first...</b>
... once a week.	... 2 absences + permit to stay (when applicable)
... twice a week.	... 3 absences + permit to stay (when applicable)
... four times a week.	... 6 absences + permit to stay (when applicable)
... in Summer, four times a week	... 2 absences + permit to stay (when applicable)

Please note that, at the instructor's discretion, additional absences may affect your grade in the class as indicated in each course syllabus.

Instructors may indicate a point deduction from either the participation or the final grade for every additional absence, or they may simply weigh absences against expectations of active participation.

#### *Make-up Tests*

An absence does not automatically entitle students to a make-up for tests or other graded in-class activities.

Students who are absent for the reasons listed below are entitled to a makeup when the absence coincides with a graded in-class activity or test.

- Permit to Stay (the Dean's office will inform the professors)
- Religious Holidays (students must notify the instructor by the end of the first week of classes). The American University of Rome makes all reasonable efforts to accommodate students who must be absent from classes to observe religious holidays. Please refer to the Dean's Office list of accepted absences for religious holidays.
- The Model United Nations (MUN) 1-credit course at AUR (when cleared in advance by the Dean's Office)

### *Fieldtrips*

Travel arrangements for academic field trips should not interfere with regular classes that meet on Thursdays. Students planning to take field trips during the semester should consider carefully whether to add Friday courses that meet once a week to their schedule.

### *Medical Emergencies*

Prolonged absences due to an emergency or a medical condition may require students to withdraw from some or all their courses. Under such circumstances students should first consult their academic advisors.

### *On Absence Management*

Students should manage their absences judiciously to account for emergencies. For example, a week-long medical emergency will set the student back by 1, 2, or 4 absences, depending on the class meeting schedule, but will not, by itself, cause the student to fail the course unless they have been absent frequently, either strategically or carelessly, in the course of the semester. Even a two-week-long forced absence will not, by itself, cause the student to fail and will account for just half the allowed absences for each course type.

Using absences strategically for work or fun is a student's prerogative. At the same time, it is the instructor's duty to enforce the university's policies when it comes to the minimum standards of attendance.

### **Grade Point Average**

A student's grade point average (GPA) is computed by multiplying the quality points achieved by the number of credits for each course. The result is then divided by the total number of credit hours taken. The Cumulative or Career Total Grade Point Average (CGPA) is the grade point average for all credit hours taken at the University and at approved study abroad programs. The GPA and CGPA are calculated by truncating after the second digit after the decimal point. Transfer credits have no effect on the CGPA at The American University of Rome.

### **Final Examinations**

Final exams are scheduled during the day(s) indicated on the Academic Calendar. Students can view the course Final Exam day and time on their schedule online, as of the first day of classes.

Students must remain available until all exam and test obligations have been fulfilled. Travel plans are not an acceptable reason to miss examinations.

A student may defer a final examination for only three petitionable reasons:

1. documented medical grounds;
2. documented international competition with a national team or other activities with equivalent

lent significance, or;

3. documented compassionate grounds.

Requests for rescheduled examinations are made in writing to the course instructor. A request for a rescheduled examination must be made 15 days prior to the final exam. Consideration for these requests is a privilege, not a right.

If a student is absent during the final examination for medical or compassionate reasons, he/she may be granted a deferred examination. Applications for a deferred examination after the examination has been missed, must be filed in writing with the course instructor within 48 hours of the date of the missed examination. A medical certificate of otherwise appropriate documentation may be required.

## Grades

Grades are posted on a secure area of the University's official website and are mailed to AUR degree students only upon written request. Grades are mailed to the various study abroad programs. Grades computed in the (GPA) reflect the following grade equivalents:

GRADE		GPA	
A	Excellent	4.00	94 – 100 points
A-		3.70	90 – 93.99 pts
B+	Very Good	3.30	87 – 89.99
B	Good	3.00	83 – 86.99
B-		2.70	80 – 82.99
C+		2.30	77 – 79.99
C	Satisfactory	2.00	73 – 76.99
C-	Less than Satisfactory	1.70	70 – 72.99
D	Poor	1.00	60 – 69.99
F	Failing	0.00	59.99 – 0
WU	Unofficial withdrawal counts as an F	0.00	
P	Applicable to development courses	0.00	

*Grades not computed into the grade point average are:*

W	Withdrawal
AUDIT (AU)	Only possible when the student registers for a course at the beginning of the semester as an audit student
I	Incomplete work must be completed within the following semester. Failure to do so results in automatically converting the I grade to the default grade, which is then computed into the grade point average
P	Pass grade is applicable to courses as indicated in the catalog.
WIP	Work in progress

## Grade Appeals

1. Students dissatisfied with their final grade in a course should contact the instructor of the course as soon as possible.

2. Only after having met with the professor can students request to see the Program Director in which the course in question was offered. If students and Program Directors cannot agree about

grades, students may request with the Dean an appeal to the Academic Fairness Committee, no later than 30 days after the grade has been issued. The Academic Fairness Committee will not make sensitive academic judgments or delve into the academic content of papers, quizzes, or exams, etc., but rather it will determine the fairness and accuracy of the grading process and assessment tools. It will look for human or computer errors in calculation, or basic systemic errors that could be construed as unfair or partial to one student or another. The decision of the committee is final, therefore grades may go up or down depending on the judgment of the four members of the committee.

3. Students are responsible for laying out the grounds for their appeals in writing: either instructors violated institutional requirements or the criteria for grading laid out in their syllabi. Students will supply to the committee graded work from the course in their possession.

4. When an Academic Fairness appeal is made the Dean will determine if there exists a prima facie case for an appeal. If it is determined that no such case exists the Dean will write to the student informing him or her of the decision and the reasons motivating that decision. The decision of the Dean is final. If it is determined that a prima facie case for an appeal exists, the Dean will inform the student of this and convene the Academic Fairness Committee (see paragraph above). The Dean will supply the instructor's written explanations of how the student's final grade was reached at and any student work in the instructor's possession. The Registrar will supply the instructor's reports of final grades in the course and student's final examination in the course, and the Dean will supply course syllabi and convene the Academic Fairness Committee.

5. The Academic Fairness Committee, composed of two student representatives appointed by the Student Government and two Faculty members appointed by the Dean, provides a court of appeal for students who believe they have been unfairly treated. The committee is chaired by the Dean or the Dean's designee, who is ex officio and non-voting except in the event of a tie. If it upholds a student's appeal, the Dean will change the student's grade to reflect the deliberations of the committee; if the appeal is denied, there is no further appeal.

#### *When students are no longer enrolled at AUR*

The Dean will consult with instructors and send students no longer enrolled at AUR explanations of how their final grades were reached. If instructors and Program Directors cannot agree about grades, students may request with the Dean an appeal to the Committee on Academic Fairness. (see paragraphs 4. and 5.)

#### *When instructors are no longer teaching at AUR*

Program Directors will consult with instructors by e-mail or telephone and explain to students, in person or by mail, how their final grades were reached. If instructors and Program Directors cannot agree about grades, students may request with the Dean an appeal to the Committee on Academic Fairness. (see paragraphs 4. and 5.)

### **Course Repetition**

A student will normally be allowed to repeat a course if the original grade was an F, D, C-, WU, or W. While the student will earn credit for the course only once, grades for all attempts remain on the transcript and are marked by an asterisk next to the grade. Instead an 'R' to the right of the grade identifies the higher repeated grade that is computed in the grade point average. Both the original course and the repetition of the course will be considered credit hours attempted for the purpose of determining successful course completion percentages.

### **Incomplete Grade Policy**

The grade of Incomplete (I) may be given to a student who is unable to complete a course due to extenuating circumstances. This grade is given at the discretion of the instructor and only if the student is eligible for a passing grade in the course. An Incomplete Contract must be completed

for an Incomplete grade to be given. The Incomplete Contract must be signed by both the instructor and the student. It must detail the work to be submitted, the deadline by which it must be submitted and the grade which should be substituted for the Incomplete should the student not fulfill the contract. The submission deadline should not extend beyond the last day of the following semester.

On completion of the contract, the Incomplete grade must be replaced through the completion of a Change of Grade form by the instructor. If no Change of Grade form is received, the default grade from the incomplete contract will become the final grade. An Incomplete grade will not be recognized without proper documentation. An Incomplete grade cannot be replaced by a W. An Incomplete may not stand as a permanent grade.

### **Course Withdrawal (W and WU)**

Students who wish to change their schedule by dropping a course within the published time parameters need to consult with their academic advisor before dropping the course online. After the add & drop period ends, in order to withdraw from a course, a student should consult their academic advisor first and then complete a drop form to be submitted to the Registrar's office. Students who withdraw from a course prior to its completion will be assigned the grade of W if they withdraw before the withdrawal deadline (as specified in the Academic Calendar) or WU if they withdraw after. Exceptions may be made after withdrawal deadlines have expired only by completing a 'Petition to Drop Courses After the Deadline' form and by receiving permission from the Dean and the Registrar. Medical withdrawals will be assigned a grade of W. A change of grade may be allowed for a medical withdrawal. The grade 'W' is not calculated into the CGPA. The grade 'WU' is considered an F and is calculated into the CGPA.

Both the W and WU will be considered credits attempted for which the student has incurred a financial obligation for the semester (see also Refund policy) and will affect the successful course completion percentage. Any withdrawal after the withdrawal deadline as specified in the academic calendar will be considered an unofficial withdrawal (WU).

Any withdrawal or non-completion after the first day of final exams will be recorded as an unofficial withdrawal (WU).

### **Dean's List**

Each semester full time degree seeking students who have completed the previous semester's work with a grade point average of 3.50 or above on a 4.00 scale are placed on the Dean's List. No grades of D, F, I, or WU are allowed in any course completed or attempted. Students must complete 15 credits or more in the semester. Inclusion on the Dean's List is recorded on the official transcript. Students on the Dean's List are permitted to enroll for an extra three credits course for the following semester at no additional charge.

### **Standards of Satisfactory Academic Progress**

All students must meet the following minimum standards of academic achievement and successful course completion to remain enrolled at the University. The student's progress is monitored each Fall and Spring semester and evaluated at the required evaluation points on the satisfactory progress table. Non-credit courses (e.g., Developmental English) are not counted as credits attempted, earned or taken and, therefore, do not affect the grade point average. Thus these courses do not influence the standards of satisfactory progress. Change of major does not affect the standards of satisfactory progress. Pursuit of an additional degree (e.g., pursuit of a Bachelor of Arts degree following completion of an Associate of Arts degree) does not affect the standards of satisfactory progress.

### **Maximum Time Frame and Successful Course Completion**

The maximum time in which a student is permitted to complete a degree is equal to the period of

time during which the student attempts 1.5 times the number of credit hours normally required to complete the program (180 attempted credits). In no case can the student exceed 1.5 times the standard time frame and receive the original academic credential for which he or she enrolled. Part time students should consult the Registrar for further information on the appropriate satisfactory progress standards.

**Satisfactory Progress Table**

Minimum Required Evaluation Point	CGPA	Minimum Successful Course Completion % of Credit Hours Attempted
25% of maximum time frame (45 credits attempted)	1.50	55% (with 45 credits attempted, 25 credits must be earned)
50% of maximum time frame (90 credits attempted)	1.75	60% (with 90 credits attempted, 54 credits must be earned)
100% of maximum time frame (180 credits attempted)	2.00	
End of First Academic Year (Two semesters as a full time student or at least 30 earned credits)	1.50	55% (with 45 credits attempted, 25 credits must be earned)
End of Second Academic Year (Four semesters as a full time student or at least 60 earned credits)	2.00	60% (with 90 credits attempted, 54 credits must be earned)
Each Subsequent Academic Year (Each subsequent two semesters as a full time student or each subsequent 30 earned credits)	2.00	67% (with 180 credits attempted, 120 credits must be earned)

**Minimum Academic Achievement: Probation and Suspension**

The table above defines two criteria (CGPA and per cent of attempted credits earned); both must be satisfied to avoid suspension following a semester on probation. Students who fail to maintain a GPA of 2.00 for any fall or spring semester will be placed on probation. The student may not register for more than 12 credits per semester while on probation. At the end of that probationary period, if the academic record is not in compliance with the standards of Satisfactory Progress, the student will be suspended for a minimum of one semester. Suspended students must request to be readmitted to the university (see relevant section below). The student is considered to be maintaining satisfactory progress while on probation. However, the student on probation may not hold office in student organizations nor participate in the student assistantship or resident assistant programs.

Transfer students shall have their status determined for purposes of satisfactory academic progress measurement by including the number of transfer credits accepted toward the degree in both attempted credits and earned credits.

Attention is called to the three sections immediately following, which specify rights of appeal and related regulations.

**Mitigating Circumstances**

The Dean may waive the academic progress standards for circumstances of poor health, family crisis or other significant occurrences outside the control of the student. These circumstances must be documented by the student to demonstrate that they have had an adverse impact on the

student's performance. Students who receive a waiver of the standards of satisfactory progress will be on probation. All graduation requirements must be met.

### **Appeal of Satisfactory Academic Progress Standard**

Should a student disagree with the application of these satisfactory progress standards, he or she must first discuss the problem with the Dean. If still dissatisfied, the student may then appeal to the Academic Fairness Committee (see relevant section above).

### **Reinstatement as a Regular Student**

Students who wish to be readmitted after being suspended due to failure to maintain the academic minimums must reapply for admission but not before a full fall or spring semester has passed from the time of suspension. If the student is readmitted, he or she must retake courses previously failed as soon as these courses are offered or demonstrate the skills applicable to the student's academic objectives. If readmitted, the student will be placed on probation for a period of one semester. At the end of the probation period, if the student's academic record is not in compliance with the standards of satisfactory progress, the readmitted student will be dismissed from the university.

### **Academic Integrity**

Integrity is fundamental to the academic enterprise. It is violated by such acts as borrowing or purchasing assignments, including but not limited to term papers, essays, and reports; lending to or producing assignments for others (either for or without payment); using concealed notes or crib sheets during examinations; copying the work of others and submitting it as one's own; and otherwise misappropriating the knowledge of others. Such acts are both dishonest and deceptive if the work submitted to instructors is not the work of the person whose name it bears.

The sources from which one derives one's ideas, statements, terms, and facts, including internet sources, must be fully and specifically acknowledged in the appropriate form. Failure to do so, intentionally or unintentionally, constitutes plagiarism. An act of plagiarism will be reported to the Registrar's office and noted in the student's file. After three incidents of plagiarism, the student will be suspended from the University for at least one semester.

#### *Intentional Plagiarism*

Submitting a paper written by someone else - a paper written by another student, a purchased paper, or a paper downloaded from the internet - can only be construed as intentional plagiarism. So, too, is writing a paper for someone else. The evidence is non-debatable.

Such instances will be reported to the Dean, who will require the student (or students) involved to sign the following statement: "Submitting a paper written by someone else as my own work (or writing a paper for someone else) is dishonest. I understand that repeating this offense will result in my suspension or permanent expulsion from AUR." The instance will also be entered on the student's record. A second instance will result in suspension or permanent expulsion from AUR. The instructor will have the following options; failing the student (or students) involved; averaging the zero grade of the plagiarized paper into the student's final grade; or averaging the zero grade of the plagiarized paper into the student's final grade and requiring another paper in its place.

#### *Self-Plagiarism*

Unless specifically agreed in advance with the course instructor, each piece of work submitted for a grade should be original and should not have been submitted before. If a student wishes to develop ideas from a previous paper, he or she is advised to summarize the previous work and reference it as with any other citation.

#### *The Improper Use of Sources*

Using sources improperly or failing to acknowledge them fully and specifically may be construed

as intentional or unintentional plagiarism. In such instances the instructor has latitude in determining the seriousness of the offense and the penalty as follows: failing the student in the course; averaging the zero grade of the plagiarized paper into the student's final grade; averaging the zero grade of the plagiarized paper into the student's final grade and requiring another paper in its place; or accepting another paper in place of the plagiarized paper and dropping the zero grade. The student will also be required to attend the Writing Center for instruction in the proper use of sources.

Such instances will also be reported to the Dean and entered on the student's record or, for a study-abroad student, reported to the home institution. A second instance may result in suspension or permanent expulsion from AUR; a third instance will result in suspension or permanent expulsion from AUR.

### *Cheating on Examinations*

Cheating on examinations in any form whatsoever — using concealed notes or crib sheets, getting help from another student, or giving help to another student — is a serious offense against academic honesty. The instructor has latitude in determining the grade on the examination and the grade for the course: the grade for the examination may be zero, the grade for the course F. Such instances will be reported to the Dean, who will require the student (or students) involved to sign the following statement: "Cheating on an examination (or helping someone else to cheat on an examination) is dishonest. I understand that repeating this offense will result in my suspension or permanent expulsion from AUR." The instance will also be entered on the student's record or, for a study-abroad student, reported to the home institution. A second instance may result in suspension or permanent expulsion from AUR.

In all these instances students have the option of an appeal to the Academic Fairness Committee.

### **Responsible Use of AI**

The policies listed below aim to protect the integrity of the learning process and the value of the degree you will receive from AUR. It is no exaggeration to say that you, the student, will be responsible for the outcome of your education like never before in the history of higher education.

This is because AI tools will soon be integrated into widely used smart technologies and can easily short-circuit the opportunity to develop the hard-earned skills and expertise you will need to advance beyond college in graduate education or on the job market.

As AI tools become more integrated and prevalent in work routines, your prospects for success and advancement will depend on showing that you are able to bring added value beyond what AI can produce on its own. Such skills are developed over time and cannot be improvised.

For these reasons AUR will adopt the following policies:

- The purpose of at-home and in-class tests and assignments is to measure the student's understanding of the subject matter, and the student's ability to express that understanding in a coherent, articulate, and grammatically correct form.
- Text produced by generative AI, if included at all, is to be treated like a source and, as such, should be clearly attributed to the engine used. It should be in quotation marks or block quotes, and the circumstances of/reasons for its generation should be clearly explained. Large chunks of AI generated texts will not count towards the assignment's word total.
- Severe inaccuracies, fake sources, and other products of AI "hallucination" may be used by instructors to challenge the authenticity of submitted assignments as evidence of student progress.
- Detection tools that report on AI generated text may be used by instructors to challenge the authenticity of submitted assignments as evidence of student progress.
- Excessive disparity in quality between in-class written work or oral presentation, and work produced at home is sufficient reason for instructors to challenge the authenticity of submitted assignments as evidence of student progress.

- Students may respond to challenges from instructors by demonstrating, in a short conversation, that they possess the knowledge, understanding, and skills evidenced in the assignment they submitted.
- Depending on context and discipline, specific assignments may require you to make use of generative AI. In such cases, adhere to the directives given by the instructor.

### **Classroom Behavior**

It is the professor's ultimate responsibility to establish behavioral tone in the classroom. Guidelines on attendance, class participation, tardiness, etc. are to be outlined in the course syllabus or clearly stated by the professor in class. It is incumbent upon the student to honor these guidelines. While the professor should engage in a policy of positive reinforcement in his or her teaching practices, students must maintain a sense of decorum in the classroom conducive to a high standard of education. AUR does not permit, for example, the use of cell phones during class. All phones must be turned off before entering the room. Students are also encouraged to take care of all personal needs outside of the classroom. Leaving and re-entering class during lectures is not allowed. Disruptions of any sort for any reason other than an emergency are considered a serious violation of classroom decorum. Repeated disturbances of this kind may have academic and disciplinary consequences.

### *Cyber bullying*

AUR has a zero-tolerance policy regarding cyber bullying. Cyber bullying is defined by the U.S. National Crime Prevention Council as, "the intentional and aggressive process of using the Internet, cell phones or other devices to send or post text or images intended to hurt or embarrass another person." The very nature of education depends upon the free exchange of ideas, and the university classroom is a safe space where ideas are explored and debated in a respectful and thoughtful way. Because cyber bullying attacks the fundamental tenets of intellectual inquiry, any student found guilty of cyber bullying another student or a professor will be immediately suspended from the university.

### **Study Abroad Opportunities for AUR Students**

With the approval of the academic advisor, AUR degree students may apply to participate in study abroad programs offered at other institutions. Courses taken at other universities must be pre-approved by the academic advisor and a Transfer Credit Permit Form must be completed and submitted to the Registrar's Office. This also applies to J-Term and Summer sessions (see also AUR Abroad). Students who receive federal aid are strongly advised to talk with the Associate Director of Financial Aid ([financialaid@aur.edu](mailto:financialaid@aur.edu)) before applying to a program.

### **Transfer credits for current degree-seeking students**

If a current student wishes to take a course outside of The American University of Rome, the student needs to complete a "Transfer credit pre-approval form" or an "Online course approval form". This form is to be approved by his/her academic advisor and submitted to the Registrar's office, prior to enrolling in the outside course. Attached to the form, the student should also submit an official course description or course syllabus for each course.

The rules and conditions for the transfer of academic credits are outlined under the "Transfer Students" section of the Admission Requirements. In general, credit from academic courses taken at institutions of higher education accredited by an American regional accrediting association, as well as from nationally recognized institutions of higher education outside of the U.S., will transfer, provided that the course is completed with at least a grade of "C" and that the course is similar in content, scope and level to work offered at The American University of Rome.

A student is not permitted to take an online course if the course is offered at The American University of Rome during a given semester and the final semester must be completed in residence at AUR. All students receiving US Federal Financial Aid are advised to check with AUR's Financial Aid office before enrolling in courses at another institution.

Upon completion of the course(s), the student must submit an official transcript to the Registrar for posting to his/her academic record. Transfer credit grades are not included in the student's grade point average.

### **Leave of Absence**

AUR degree students in good financial standing may request a leave of absence by completing the appropriate form with the Registrar. A leave of absence can be for no more than one year and allows for automatic readmission under the same academic program. A leave of absence deposit fee of 120 Euro is required and will be credited towards tuition payment once the student returns, otherwise it is non-refundable.

A student who fails to file a signed form and pay the required fee by the last day of Add/Drop and does not return by the start of classes will be considered to have withdrawn from the University. Withdrawn students who should decide to return must reapply for admission following the requirements at the time of application.

Degree-seeking students who need to take a Leave of Absence during the semester, due to extenuating circumstances, must submit a request to the Registrar in writing. Only students in good financial standing (without a financial hold) can request a Leave of Absence, and thus defer the tuition paid, as well as eventual scholarships received, should it be granted.

If the student should not return after the approved Leave of Absence, no refund will be applied. Students are advised to contact their academic advisor to understand how a Leave of Absence will affect their degree progression, as well as AUR's Financial Aid office if they have financial aid (loans and/or scholarships).

### **Withdrawal from AUR**

Students wishing to withdraw from the University should complete a Withdrawal Notification form available from the Registrar or notify the Registrar in writing. Degree seeking students who do not enroll during the following regular semester (Fall/Spring) and are not recorded on a leave of absence will be automatically considered as withdrawn. Students with federal aid who withdraw must complete Federal Loan Exit Counseling and will go into the 6-month grace period for loan repayment.

### **Graduation**

The formal commencement ceremony is held at the end of the spring semester for degree candidates who have completed all graduation requirements that academic year. Degree candidates who have yet to complete a maximum of eight credits in the following Summer session may also apply to participate in the ceremony. There are three degree conferral dates per year (noted on transcripts and diplomas): in December, May and July or August. These three dates will constitute a graduating class. Candidates for degrees are to file a Graduation Request Form with the Registrar's Office before beginning their final semester of study. Applications for graduation will only be approved by the Registrar after the academic advisor has completed a graduation audit.

Students must pay the graduation fee prior to participating in the ceremony and/ or receive their diploma. Students may not file an application for graduation during the summer sessions. Diplomas and transcripts will be issued only to students in good financial standing with the University and only these students may participate in the commencement ceremony.

### **Graduation with General College Honors**

The American University of Rome confers graduation honors for the following academic achievements:

- Students with a GPA of at least 3.75 but less than 3.90 will be graduated *Magna Cum Laude*.
- Students with a GPA of at least 3.50 but less than 3.75 will be graduated *Cum Laude*.

The American University of Rome and have all courses completed and reported for calculation of the final cumulative GPA by Commencement Day.

### **Graduation with Honors in the Major**

On recommendation of Program Directors, students with at least 24 credits in the major may graduate with 'Honors in the Major'. Students are eligible for Honors in the Major if their GPA in the major is not less than 3.50 and their cumulative GPA is not less than 2.70 at the time of graduation.

### **Transcript Requests**

An official transcript will be sent to any institution or institutions designated by the student on a Transcript Request form, which is available from the Registrar's Office ([registrar@aur.edu](mailto:registrar@aur.edu)) and from the AUR website [www.aur.edu](http://www.aur.edu). Only requests bearing a student signature will be processed. Faxed or e-mailed requests are accepted. Students should allow up to ten days for transcript processing. A fee will be charged for the service (see 'Tuition and Fees' on the website). Transcripts will not be issued to students who are not in good financial standing with the University.

### **Family Educational Rights and Privacy Act (FERPA)**

The Family Educational Rights and Privacy Act (FERPA) is a federal law that protects the privacy of a student's education records. In compliance with FERPA, The American University of Rome does not disclose personally identifiable information contained in student education records, except as authorized by law and/or those with written consent from the student. Further information can be found on our website.

### **Grievances and Student Complaint Form**

It is not uncommon that students encounter problems during their university study. They may be academic or non-academic in nature. Students are encouraged to seek problem resolution as soon as possible. Problems, complaints and /or grievances may involve other students, staff, faculty or university policies or procedures. It is specifically recommended that in attempting to resolve a problem or dispute that the students be polite, be specific and follow the below guidelines.

Students should first contact the parties or offices directly involved in a frank, respectful way. (Ex: fellow student, faculty or staff member etc.). The focus should be as specific as possible. Issues that are vague are by nature harder to resolve.

However, not all complaints can be resolved one on one. The American University of Rome has created an online process by which a student can file a formal complaint. Complaints placed in writing on this form will be directed to the person who can most appropriately address the complaint. Students will be contacted if additional information is needed and notified of the actions taken regarding the complaint. The Form is available on MyAUR.

## GENERAL EDUCATION

Completion of the General Education program is a requirement for all bachelor's degrees, and makes use of courses throughout the AUR curriculum. Consistent with the mission of the University, the program develops important practical skills, addresses social issues of diversity, multiculturalism and ethics and draws on the rich resources of the city of Rome as a learning tool. Reflecting the mission of the institution, it strives to ensure that all students, regardless of major, will share a common dialogue which will prepare them to live and work across cultures.

The goals of The American University of Rome's General Education program are:

1. to develop and strengthen basic skills which will prepare students upon graduation for a modern working environment and which will be adaptable to a rapidly evolving economy.
2. to cultivate an awareness of, and sensitivity to, cultural diversity and its importance in personal and professional decision making.
3. to achieve a broad knowledge base, drawn from multiple disciplines, typical of an American Liberal Arts Education
4. to use Rome as a classroom and as an invaluable learning resource.
5. to encourage active and responsible citizenship through knowledge of the forces shaping the actions of individuals and societies and through the development of critical thinking.

The General Education program requirements are shared by all majors, though each major may also require particular Foundational General Education courses to satisfy major requirements.

### A. FOUNDATIONAL SKILLS (17-26 credits)

AUR requires that all students achieve excellence in the following skills: Writing, Quantitative Reasoning, and Italian Language. These skills provide a basic knowledge which can be adapted to any academic discipline and will enable the individual to respond effectively to challenges both in the classroom and in his or her profession.

There are four elements to the Foundational Skills program: First Year Program, Writing Skills, Quantitative Reasoning, and Italian Language competence. These elements are satisfied by taking required courses that specifically address these skills. Foundational courses must be completed by the end of the sophomore year (within the first 60 credits).

#### 1. First Year Program (3 credits)

*waived for transfer students with at least 30 transferred credits*

AUR's First Year Program is a signature, one-semester course required of all first year students, irrespective of their choice of major. Communal learning—where all first-years students encounter the same questions, experiences, and texts—and the critical discussions that emerge from small seminars, make AUR's first year program distinctive.

FYS 101, Explorations in the Liberal Arts, is intellectually stimulating and personally transformative for students. Team-taught by several AUR's distinguished full-time faculty from a variety of disciplines. The interdisciplinary approach fosters a habit of mind that students will employ throughout their studies at AUR and into life beyond the classroom.

FYS 101                      Explorations in the Liberal Arts

Students who receive an F in FYS 101 have not achieved the satisfactory academic progress to proceed to more advanced work at the 200-level. These students will be restricted to 100-level courses in the semester following failure of FYS 101, and may be required to enroll in particular courses to reinforce essential skills and/or may have a restricted credit load.

**2. Writing (6-9 credits)**

All students must take three courses in English Writing which will ensure that all students can write grammatically correct English and express themselves clearly in language suited to the target audience. These skills are further developed in the Breadth of Knowledge section of the General Education requirements, and through discipline-specific upper-level courses within the major. Students will be placed in a course appropriate to their writing ability based on transfer credits.

ENG 101	Writing Fundamentals
and	
ENG 102	Writing from Research
and	
ENG 202	Writing from Theory
	(waived for transfer students with at least 60 transferred credits)

Students passing ENG 101 or ENG 102 with a grade of D have not acquired the skills necessary to successfully complete the next level and will need to repeat the course in the following semester.

**3. Quantitative Reasoning (3 or 6 credits)**

All students should be capable of performing basic mathematical operations and applying them to analyze data within their fields of study. Students may select a course focusing on general mathematical principles or applied mathematics, although a specific course or courses may be required by the major.

Upon completion of the Quantitative Reasoning requirement, students will be able to:

- Produce and interpret quantitative information in various forms such as graphs, equations, diagrams, etc.
- Implement appropriate methodologies to draw valid conclusions based on quantitative information.
- Apply quantitative techniques to address questions within their own areas of study or interest.

**4. Italian Language (8 credits)**

In order to appreciate the opportunities that Rome has to offer it is considered essential that all students have a basic competence in the Italian language and culture. All students must demonstrate a proficiency in Italian equivalent to one year of study. All or part of the Italian language requirement may be waived via competency demonstrated through proficiency placement examinations. Such exemptions do not yield any credit unless the exemption is based on successful completion of college courses.

## **B. BREADTH OF KNOWLEDGE (18 credits)**

The goal of a Liberal Arts education is to enable students to be flexible and critical thinkers in a variety of subjects, and to apply interdisciplinary methodologies to solve problems in the classroom, in the workplace, and in their own lives. Towards this end, AUR students take courses in all of the disciplinary areas that contribute to the Liberal Arts: Creative Arts, Humanities, Natural Science, and Social Science. As well as introducing students to the varied approaches to knowledge, the courses included in these content areas integrate key skills essential to a successful career in college and in the workplace, such as Information Literacy, Oral Presentation, and Information Technology. Courses at the 100-level must embed at least one of these essential skills in the course requirements; 200-level courses must embed two essential skills. Breadth of Knowledge courses may also satisfy major or minor requirements, or serve as free electives. These courses may be completed at any time during the bachelor's degree, though students will derive greater benefit from the content and embedded skills by completing them within the first 90 credits.

### **1. Creative Arts (3 credits)**

Creative Arts courses allow students to understand the creative process through practical engagement in the literary, performing, and visual arts. These courses emphasize the creation of art, to inspire students towards innovative thinking in all disciplines.

Upon completion of the Creative Arts requirement, students will be able to:

- Demonstrate knowledge of the processes used to create works of art, literature, or performances.
- Analyze and evaluate the aesthetic and/or compositional qualities of works of art, literature, or performance.
- Apply basic theories relating to works within a particular artistic medium or genre.

#### **D. EXPERIENTIAL LEARNING**

Each student's program of study must include at least one application of his or her gained knowledge and skills to an educational experience beyond the traditional university classroom. Such experiences encourage students to consider the relevance of their studies in real-world contexts, to understand their individual impact on the community beyond the AUR campus, and to contribute to their own future success. Some Experiential Learning are credit-bearing (Internship, travel courses etc.) with graded assignments and/or required tasks, others may not be credit-bearing and will require a reflective process (in the form of essay, artwork, blog, or other output) to complete the requirement.

Upon completion of the Experiential Learning requirement, students will be able to:

- Apply skills and concepts from their coursework to new scenarios outside standard university courses.
- Use experiential learning to inform the pursuit of their academic discipline and interests both during their AUR coursework and after graduation.
- (For individual projects and internships) Demonstrate independent learning, including personal reflection or analysis of one's goals and accomplishments.

Possible Experiential Learning (credit bearing):

- Internship (INT 450)

- Real Project: Team-Based Internship (INT 250)
- Special Topics: Model UN (IA 360)
- Practicum courses, including ARC 293, COM 403, COM 412, COMK 408, ENG 414, etc.
- Three 1-credit field-trip courses or one 3-credit field-trip course
- Study abroad at an accredited university

Students may also complete the Experiential Learning without enrollment in a credit-bearing course or courses. These methods of fulfilling the AEE require a proposal application and approval by the student's advisor and the Director of General Education. The student typically completes the AEE activity within the scope of a single semester, but other completion parameters may be proposed in the application. Students must also propose a reflective process (in the form of essay, artwork, blog, or other output) as part of the proposal.

Possible Experiential Learning (non-credit bearing):

- Service learning or volunteer activity
- Independent Travel for Research (minimum 7 consecutive days)
- Military service or other significant work or life experience
- Participation in an undergraduate conference, performance, exhibition, or journal outside of the university, which has been peer-reviewed, juried, or otherwise assessed for scholarly or artistic merit
- Another proposed creative or research project independent from coursework requirements

Students must consult with their advisors before embarking upon an Experiential Learning, especially if the proposed completion will not be credit-bearing. The application for an independent Experiential Learning project may be found on MyAUR or may be requested from the Director of General Education.

The Archaeology and Classics Program offers the students the opportunity to combine the study of applied archaeological methodology with the multi-cultural study of the ancient Mediterranean, focusing especially on the unique context of the city of Rome. Drawing upon a wide range of high-level academic and practical skills the student will receive a thorough Liberal Arts education which also prepares the student for careers in professional archaeology, museum work, the cultural heritage sector, and graduate studies in archaeology, Classics, art history, and history. In addition to traditional courses in ancient history, Classics, and ancient Greek and Latin, students also have the possibility to excavate archaeological sites, explore the ethical concerns of conservation and restoration and study the management and marketing of heritage.

The traditional classroom environment is complemented by multiple on-site classes visiting ancient monuments, museums, archaeological sites and specialized laboratories. Students are encouraged to participate in the archaeological fieldwork and museum and laboratory internship opportunities available in the program. These not only give a good foundation in archaeological techniques but also provide an opportunity to develop teamwork skills in a multicultural environment with international collaborators.

A full range of Ancient Greek/Latin courses from beginner to advanced is available and a minor in Latin is open to all majors.

The Film program aims to graduate the next generation of film, television, and video producers by training them to be “total-filmmakers”: proficient in all of the cinematic skills of writing, directing, shooting, editing, and the use of sound. The program trains students not to be technicians, but to develop students who create innovative and meaningful film content; content which will be informed by their education in the liberal-arts environment at AUR and enriched by their experience of working collaboratively with students from all over the world here in the city of Rome.

Students will graduate with a portfolio of their own diverse work in a mixture of fiction and non-fiction forms. This portfolio will enable graduates to continue their creative careers as directors, editors, screenwriters, cinematographers, sound designers and/or other possible roles in the traditional and emerging film and video fields.

On completion of the BA in Film program students will be able to:

- Write, direct, produce, shoot, edit, record and mix sound of a short film of their own by employing technical and creative use of digital video cameras and lenses, sound recording equipment, and software for editing and sound mixing.
- Creatively apply aesthetic concepts of cinematic form and dramatic language to create unique, effective and impactful films.
- Express, both written and orally, their film concepts and ideas, explain and defend their creative and technical decisions, and effectively critique the film works of others.
- Employ a knowledge of film history, theory and genres in their own creative work and in the evaluation of other's work.
- Behave in a professional, responsible, and ethical manner while working with others in their film endeavors.

The Bachelor of Arts in Film requires successful completion of 120 credits of which: General Education requirements (variable number of credits), 48 credits of major requirements and a number of free elective credits. Below is a list of practical examples illustrating the broad range of career opportunities available to graduates with a Major in International Relations and Global Politics.

- International Organizations (IGOs) and Non-Governmental Organizations (NGOs): Policy Analyst (in organizations such as the United Nations, the European Union, the World Bank); Humanitarian Affairs Officer (in organizations such as the United Nations High Commissioner for Refugees or the International Committee); Program Officer (in fields such as development, human rights and conflict resolution); Researcher in Peace and Conflict.
- Government and public sector: Diplomacy and Foreign Service Officer, Intelligence Analyst, Political Risk Analyst, International Trade Specialist, Civil Servant (working in specific ministries such as foreign affairs, defense, development, etc.).
- Media and Communications: Journalist (national or international affairs), Foreign Correspondent, Public Affairs Consultant. Besides the media world jobs are available in Think Tanks, Government offices, NGOs, freelance.
- Research and Academia: Research Assistant, Fellow, professors (Think Tanks, universities, or policy institutes), Policy Advisor or Analyst (for governments, NGOs, or research organization).
- Law and Advocacy: Human Rights Advocate with NGOs (e.g. Amnesty International, Human Rights Watch), or International Governmental Organizations, International Law Assistant with legal studies, Lobbyist, Legal Advisor (NGOs, intergovernmental bodies).
- Development and Humanitarian Work: Development Program Officer, Grants Coordinator, Monitoring and Evaluation Specialist, Disaster Relief Coordinator.
- Private sector: Global Communications, PR Officer, International Business Consultant, Corporate Social Responsibility Specialist, International Marketing Analyst, Risk or Compliance Analyst, Multinational corporations.

The Program includes core courses in the discipline coupled with area studies (e.g. Mediterranean and Middle East studies) and practice-oriented courses (e.g. Conflict Resolution and Negotiation). Students will be taking courses such as: International Relations, International Political Economy, Globalization, International Security, Ethics, Migration and Human Rights, as well as introductory political science courses (e.g. History, Sociology, Anthropology and Psychology).

Students have the possibility to participate in field study trips mostly in Europe to bridge the theoretical learning with case study experience. The Fall-field study trips usually focus on cities hosting major International Institutions (e.g. the European Union in Brussels, the UN Agencies and the WTO in Geneva, the UN Agencies and OPEC in Vienna, and the OECD in Paris). Spring-field study trips focus on major issues (e.g. security, conflict, separatism –destinations being: Northern Ireland, Kosovo; The Basque Country; Catalonia). The 2019 J-term field study trip to Cyprus analyzes the de jure/de facto sovereignty issue of the country – i.e. between the Republic of Cyprus (a member of the EU) and the Turkish Republic of Northern Cyprus (Turkey). In January 2015 the field study trip to Turkey analyzed the role and power of Turkey as an emerging actor (both economically and politically) and its shifting alliances and interests (from NATO/EU to Eastern actors).

Since 2024, the IRGP Program has hosted a three-day Spring International Student Engagement Conference. Two days of the conference are dedicated to discussions with scholars, policymakers, experts, NGO representatives, and journalists, while the third day is reserved for field visits in Rome to organizations relevant to the conference themes. The inaugural edition in 2024, *Not a Migration Crisis, a Migration Reality*, was organized in collaboration with the Harvard University Undergraduate Foreign Policy Initiative. The second edition, *Navigating Global (Dis)Order: Governance, Technology, and the Challenge of Sustainability*, featured the participation of students from the Hertie School (Berlin, Germany) and Johns Hopkins SAIS (Bologna, Italy). The third edition, to be held in 2026, will focus on *The EU After Pax Americana*.

Internship possibilities in Rome include: i) International Organizations in Rome (e.g. Food and Agricultural Organization; World Food Program; International Fund for Agricultural Development; NATO Defense College), Institute for International Affairs, IAI a Think Tank that is among the top 20 best think tanks in the world); ii) International Organizations in Europe (e.g. there is an agreement with the OECD in Paris for AUR students but there is also potential to take advantage of the EU institutions); iii) Non-Governmental Organization (e.g. Italian branches of Amnesty International and Save the Children); iv) Think Tanks (e.g. the Institute for International Affairs in Rome – ranked one of the best 20 Think Tanks in the world). Internships represent a great opportunity students should exploit, during or soon after their Bachelor's degree in International Relations and Global Politics at AUR, to develop practical knowledge and skills relevant to their future career.

Students pursuing an AUR degree in International Relations and Global Politics are given the opportunity to supplement class lectures with International Conferences which address issues of current topical interest and give students opportunities to meet, listen to and question those who develop and implement international relations policy. Monthly Special guest seminars (e.g. ambassadors; politicians; academics) will complement course lectures and offer food for thought.

After having completed AUR's program in International Relations and Global Politics, students will:

- Possess a framework of knowledge in the fields of politics, history, economics international relations and relevant social sciences.
- Possess the knowledge of the theory and the analytical ability to put it into comparative and ethical context.
- Possess methodological skills relevant to data-gathering and communication of findings.
- Be prepared for pursuing postgraduate studies or for a career in either: International Governmental Organizations, International Non-governmental Organizations, public administration and associated institutions for research and commentary on the subject.
- Be able to use the Roman, Italian and multicultural learning experience at AUR in order to enhance their ability to apply the skills in other contexts

The Bachelor of Arts in International Relations and Global Politics requires successful completion of 120 credits of which: General Education requirements (variable number of credits), 39 credits of major requirements and a number of free elective credits. Students must achieve a cumulative grade point average of no less than a 2.00 on a 4.00 scale with no grades of D and no more than one grade of C- in core courses required for the major (24 credits).

**FREE ELECTIVES (credits to complete the 120 credits needed for the Bachelor degree)**

Free electives can be used towards satisfying a minor, to supplement a major or to explore other academic areas.

The Bachelor of Science in Business Administration (BSBA) curriculum provides a broad, professional foundation in all functional areas of business. Students follow a structured, organic core curriculum that introduces them to the various functions (marketing, finance, operations, accounting) of business, provides them with the quantitative tools (statistics, computer science, economics, decision science) necessary to understand and interpret data, and introduces them to prevailing management theories and paradigms as well as issues related to legal and ethical concerns in the business arena. Upper level courses incorporate case analyses, group projects and creative problem solving. All students take the capstone course, Strategic Management, in their last spring semester. This is a seminar-style, case-based application of the tools and concepts acquired in the first three years of study. At the same time they research and write their thesis, a strategic audit of a publicly traded transnational firm of their choice.

The program has an international focus with many opportunities for students to explore the social and cultural ramifications of operating in the global economy. The nature of the student body complements the international flavor of the program. AUR Business students represent more than 30 different countries. The program promotes a work ethic that prepares students for working in diverse multi-cultural environments. Interdisciplinary learning opportunities allow students to understand how different world views can affect the functioning of business. The BSBA program will enable students to:

- Select and apply appropriate quantitative and qualitative methodologies to analyze problems in a business context.
- Develop creative and innovative solutions to real-world problems.
- Develop leadership and organizational skills, working in teams toward common objectives.
- Apply a variety of communication methods that are used in the business world in order to articulate and resolve business problems.
- Situate business problems and appropriate solutions within their cultural and ethical contexts.

Students armed with the AUR Business degree are ready to begin their careers in business in the fields of marketing, finance, manufacturing, sales, advertising and management, and should be comfortable working in either American or international settings. The degree also provides a firm foundation for MBA and other graduate study.

The Bachelor of Science in Business Administration requires successful completion of 120 credits of which: General Education requirements (variable number of credits), 48-51 credits of major requirements and a number of free elective credits. The Bachelor of Science in Travel and Tourism Management curriculum is designed to meet the needs of the travel and tourism industry, which ranks among the most exciting, dynamic, and fastest-growing sectors on the planet, by combining liberal arts courses, business courses, specialized courses in travel and tourism, and real-world experience.

A degree in Travel and Tourism Management will prepare students for entry level management positions as well as exciting entrepreneurial careers in this rapidly expanding global market, by equipping them with essential industry knowledge and leadership skills in tourism destination planning and development, innovation, management and marketing, accounting and finance, operations, as well as travel and tourism economics and global policy, both in and out of the classroom. Students will learn how to think and act strategically, solve problems individually and in teams, and apply acquired knowledge in practice.

TTM graduates will find themselves operating tours, working in travel and tourism bureaus, cultural heritage sites, working for airlines, hotels, cruises, resorts, restaurants, museums and galleries, media and communications organizations, or even establishing their own businesses. Preparation for such careers is achieved through a combination of theoretical and practical knowledge gained through classroom instruction, field trips, seminars with travel and tourism experts and leaders, and hands-on experience. In their junior year, students are given internship opportunities in a local Italian tourism environment.

There is no better place to study Travel and Tourism than Rome. The Eternal City is one of the world's most important tourist destinations due to its archaeological and artistic treasures, unique traditions, panoramic views, and magnificent villas. Studying travel and tourism in Rome affords ideal opportunities for unique fieldwork experiences. Cultural and heritage tourism as well as food tourism and religious tourism play key roles not only in Italy, but also in Europe, whose tourism product is built primarily on culture. Therefore, if they choose, TTM students can specialize in one of two concentrations: Food Tourism and Cultural and Heritage Tourism.

Upon completion of the BS in Travel and Tourism Management students will be able to:

1. Identify place attributes that contribute to creating destination for visitors and describe how tourism generates economic impact locally, nationally, and internationally as well as analyze domestic and international trends in the travel and tourism industry.
2. Demonstrate an understanding of the foundations of tourism: the respect for the host culture and responsibility to preserve the unique values, traditions, and practices of that place, examining the positive and negative aspects that tourism can bring to a region or destination.
3. Develop creative and innovative solutions to real-world problems in the travel and tourism sector.
4. Communicate effectively and confidently demonstrating leadership and teamwork skills to achieve goals.
5. Use knowledge of best practices and multicultural perspectives to champion economic, environmental and cultural sustainability in the travel and tourism industry.

The Bachelor of Science in Travel and Tourism requires successful completion of 120 credits of which: General Education requirements (variable number of credits), 48-51 credits of major requirements and a number of free elective credits. Students must achieve a cumulative grade point average of no less than a 2.00 on a 4.00 scale with no grades of D and no more than one grade of C- in core courses required for the major (36 credits).

## **ANT 302 – ANTHROPOLOGY OF VIOLENCE**

This course approaches violence as an inherent and constitutive experience of contemporary societies, in the United States and beyond. Drawing insights from multiple academic disciplines, the course sheds light on how endless violence reshapes collective mindsets and individual lives: i) absorbing and re-distributing resources across economic systems; ii) recasting the relationship between rulers, citizens and military structures; iii) impacting on human security (including food security, energy security and environmental security). ### **AH 324 – ART OF THE ROMANTIC IMAGINATION, 18TH AND 19TH CENTURY ROME**

Neoclassicism is the artistic expression of the Enlightenment. It found in Rome a natural breeding ground, since the city was still imbued with memories of its Classical past. During this course we will see how Neoclassical art owed to its own time as much as to Antiquity, and how it reflected an enthusiasm for the ideals of the French Revolution, the majesty of the Napoleonic Imperial Age and the restoration of papal temporal rule. The second part of the course is devoted to Romanticism, a cultural movement born in Northern Europe with the development of nations-states. It too found fertile ground in Italy, which would itself be finally unified during the Risorgimento. Art therefore became a vehicle for political propagandizing, with artists referring back to the Middle Ages as the last period of Italy's independence from foreign rule. Italy contributed once more to the development of European art through its "Macchiaioli" movement in painting, which

anticipated Impressionism, and through the vast urbanistic programs to renovate and modernize Rome, now a capital again, in the closing years of the century.

*3 credit hours. Pre-requisites: A 100-level Art History course. Students are responsible for all entry fees. An additional fee may be collected in the event of a required excursion.*

This seminar will venture beyond the traditional boundaries of Art Historical study by bringing into discussion the current state of research in nationalism and ritual studies on a theoretical foundation in aesthetics. The goal of the course is to advance superior argumentation, evaluate and employ primary historical source material (in translation) and apply current theoretical approaches to art historical research.

In this age of digital and social media, it is possible to expose a person's most intimate secrets, likeness and personal information to the public in literally a matter of moments. in the social behavior when the information is consumed, repackaged and recombined with other sources. ### **ECO 315 - A BRIEF HISTORY OF CAPITALISM**

This course provides students with an historical perspective about how capitalism developed from the industrial revolution to today global capitalism and how it adapted to different institutional and cultural contexts. According to these frameworks, institutions matter because they regulate capitalism responding to varying local contexts, values, and interests. From an empirical point of view, specific case studies are compared to answer key questions such as: how can we define Capitalism to distinguish it from other economic systems (i.e. socialism, mercantilism, etc.)? How can we identify different phases of Capitalism from its origins in the 18th century to now? Is Capitalism today different across countries (i.e. Europe, Africa, Asia, US)? What is the role of institutions in a Capitalist system and how can institutions change?

### **ECPO 204 – THE EUROPEAN UNION: ORIGINS, EVOLUTION, AND IMPACT**

The course provides an analysis of the emergence and development of the European Union from the aftermath of World War II to the present. The forces, the events, and the individuals that have shaped the European Union (EU) up to now will be presented together with the strenght and weaknesses of this project. The EU is the most interesting political entity in history beyond the nation-state trying to reconcile national and supranational interests and values – EU's motto is: "Unity in diversity", in varietate concordia. The common currency and a common trade policy have not been met by a common foreign and security policy, or a common tax or immigration policy. The EU project is still in the making. The EU is a controversial political-economic entity facing challenges as showed by the events in its recent past: the failed constitutionalization process; the eurozone debt crisis; Brexit; and the immigration crisis. From the European Economic Community to the Singel Market, from the Maastricht Treaty to the euro the course will show the evolution, the institutions, the interests, and the powers of the EU.

Both before but particularly after September 11th, 2001, The Middle East has played a vital role in influencing the world we live in. In order to better understand the complexity of this region where major wars have been waged, it is necessary to equip students with an in-depth understanding of the forces and influences that have historically shaped the region. This will be done by asking questions that analyze trends such as the growth of Nation States, of Arab Nationalism, the Arab-Israeli Conflict, the tension between Secularism and Religion, as well as the growth of Political Islam. The course will start with the encounters between East and West at the beginning of the 19th Century and the rise of Nation-States through to our times.

## **INTERDISCIPLINARY STUDIES**

### **IDS 498 - INTERDISCIPLINARY STUDIES CAPSTONE EXPERIENCE 1: SEMINAR**

Part 1 of the Capstone Experience prepares students for the culminating work of the major, the senior project. This project typically takes the form of a thesis, but other formats may be considered with approval of the instructor, provided the student has appropriate prerequisite coursework or experience. In this seminar students will review their own portfolios to assess their progress and strengths; evaluate the resources and methodologies needed to execute their projects; analyze examples of advanced scholarly and/or creative work; and prepare a project proposal supported by an annotated bibliography or similar preparatory assignment. *2 credits. Pre-requisites: AUR Degree seeking students with Senior standing in Interdisciplinary Studies.*

### **IDS 499 - INTERDISCIPLINARY STUDIES CAPSTONE EXPERIENCE 2: PROJECT**

Part 2 of the Interdisciplinary Studies Capstone Experience consists of supervised independent work on the senior project. The project is the culminating work of the major, in which students demonstrate their command of the knowledge and skills gained in on-site courses and seminars by conducting their own research on an Interdisciplinary Studies topic of their own choosing. Working closely with a faculty advisor, students find and assess the evidence for a particular issue or position, and develop their own point of view on it. The final product is typically in the form of a thesis, a sustained and significant piece of writing that prepares majors for graduate school or for employment requiring high-level verbal and analytical ability, but may take another format with prior approval during the Capstone Seminar.

*2 credits. Pre-requisites: IDS 498; AUR Degree seeking students with Senior standing in Interdisciplinary Studies.*

## **INTERNATIONAL AFFAIRS**

### **IA 100 – INTRODUCTION TO INTERNATIONAL RELATIONS: HISTORY AND CONCEPTS**

For many years, it was argued that IR was a branch of Political Science concerned with the ‘international’ rather than the ‘domestic’ sphere of political life. According to most descriptions, the ultimate *raison d’être* of IR was to explain why wars happened and how peace could be sustained over time. The main subjects were states, and the focus was on dynamics between states in an anarchic world. The modern study of IR incorporates, *inter alia*, many different actors, not just states (e.g. International Organizations, Non-Governmental Organizations, Multi-National Corporations, Social Movements, Civil Society); the study of the environment; the emergence of an international human rights regime; the reasons for state failure; the degree to which globalization as a phenomenon is altering the structure of international society; and, increasingly, the sources of disorder in an age of international terror; hegemony versus multipolarism. Students will be able to debate concepts like: balance of power, collective security, international legal arrangements, and globalization. This course is both an introduction to International Relations and a useful transmission belt to those going on to study IR after their first year. The course fulfills information technology and oral presentation requirements.

*3 credit hours.*

### **IA 200 – INTERNATIONAL RELATIONS: THEORIES AND CASES**

This course complements empirical knowledge acquired by students in the IA 100 course. It consists of in-depth study of main theories of international relations: realism, liberalism, Marxism, constructivism, feminism, and post-structuralism as well as using these theories to explain political concepts and look at specific cases in contemporary politics. Beyond application of theoretical

frameworks to current affairs students will learn how to criticize existing theories and how political science concepts evolve and change due to changing international context.

*3 credit hours. Pre-requisites: IA 100.*

### **IA 201 – GLOBAL POLITICS**

The changes in world politics over the last 15-20 years have been both sudden and dramatic. This course provides the students with diverse conceptual frameworks for understanding the current transformation of global politics. How basic political science concepts (like state, power, political movements, governance) need to be readdressed in light of these changes will be discussed. The current stage of globalization will be explored by historical comparison with earlier periods of political integration and disintegration, going back to Antiquity.

*3 credit hours. Pre-requisites: Any introductory-level Political Science or International Affairs course.*

### **IA 202 – INTERNATIONAL ORGANIZATIONS**

This course explores the functioning of international organizations in today's world. It analyzes 1) the meaning, the origins and the actors of global governance and the reasons why it is increasingly needed; 2) the centerpiece of global governance: the United Nations; and 3) the evolution, the role, the purposes and the impact of regional and sub-regional organizations active in Europe, Africa, the Americas, Asia and in the Middle East. The course will also address a number of cross-cutting issues and challenges whose resolution require a global approach, and will, finally, discuss the role played by IOs in securing international peace and security.

*3 credit hours. Pre-requisites: A lower-level Political Science course or permission of the instructor.*

### **IA 203 – U.S. AND EUROPE SINCE 1945**

This course examines U.S. influence in the reconstruction of Europe after WWII, the Marshall Plan and the development of the idea of European integration, the U.S. as a world power with a permanent military presence in Europe, and the birth and evolution of NATO. Students will also analyze tension over decolonization in Suez, 'the Special Relationship' between the U.S. and Britain, tension with France and harmony with Germany, the end of the Cold War, the new EU and the new NATO. Evolution of Transatlantic relations after September 11 and during and after the second war Gulf War will also be examined.

*3 credit hours. Pre-requisites: Lower level POL, IA, HST or permission of the instructor.*

### **IA 212 - INTERNATIONAL LAW OF WAR AND PEACE**

This course addresses the law of interstate relations focusing on three major areas relevant to students of international relations. First, War and peace (e.g. collective security, the law of armed conflict, disarmament); second, Crime and punishment (e.g. war crimes and other international crimes; international criminal justice; international judicial cooperation; State responsibility); and, finally, Law and diplomacy (e.g. settlement of disputes, both judicial and diplomatic; diplomatic relations; privileges and immunities). Analysis of these topics - through a practice-oriented and problem-solving approach - will be preceded by an introduction to some of the essential features of the international legal system, limited to what is strictly necessary for the purposes of an adequate understanding of the above-mentioned issues.

*3 credit hours.*

### **IA 214 - RACIAL JUSTICE AND THE LAW**

In the context of the socio-legal environment of Italy, the European Union (EU), and the global south, including South Africa, the course will study the use of the law both to perpetuate and eradicate racial and economic injustice. While a significant focus of the course examines the United States from the inception and rise of slavery during the colonial period through the racial desegregation decision of the United States Supreme Court in *Brown v. Board of Education* in

1954 to the present, a comparative analysis of such circumstances as the treatment of migrants in Italy and other countries within the EU, or apartheid and post-apartheid South Africa will inform that review. The course analyzes the history of racism and the role of the courts, implicit bias as an offshoot of white supremacy, the criminal justice system and its impact on racial minorities, including African-Americans in the United States. Regarding the issue of implicit bias, especially in the criminal justice system, the course examines how current legal systems continue to maintain racial hierarchy while using less explicit language of discrimination. A significant focus of the course is on policing and the criminal justice system.

*3 credit hours. Pre-requisites: permission of the instructor.*

### **IA 301 – COMPARATIVE FOREIGN POLICY**

The course examines the complex interplay of multiple factors that influence foreign policy choices in different countries. It also looks at leaders' personality and their perceptions, domestic and international constraints of state actors and the balance of power in the international arena. To gain insight into how individuals ponder options and take decisions, how states engage with others and how the international system impacts on the interaction between states, three levels of analysis will be used: the individual, the state and the international system levels of analysis. This theoretical framework will then be applied to a collection of case studies allowing for a comparative analysis of countries' foreign policies.

*3 credit hours. Pre-requisites: A lower-level Political Science course or permission of the instructor.*

### **IA 302 – ISLAM AND POLITICS**

Scholars, government analysts and terrorism experts have examined the relationship between Islam and politics for years. Although this field of study is not recent, it became both dominant and essential since 9/11. This course intends to provide a comprehensive, analytical, and in-depth examination of political Islam in an increasingly globalizing world. The purpose is thus to show the interaction of Islam and politics and the multiple and diverse roles of Islamic movements, as well as issues of: i) authoritarianism; ii) democratization; iii) religious extremism; and iv) terrorism. The first part of the course will give a general overview; the second part of the course will focus on case studies at the regional and global level.

*3 credit hours. Pre-requisites: A lower-level politics or international affairs course.*

### **IA 303 – THE US, THE EU AND CHINA: WHO IS GOING TO LEAD?**

This 3-credit course is an advanced course of International Relations where students will learn how to apply Theories of International Relations to critically analyze contemporary global affairs between the US, the EU and China. Will these global actors try to use increasingly power politics or institutional cooperation? Will they be able to write together the rules of the Game? The US, the EU and China might recur to different policies and strategies depending on the circumstances and prevailing ideologies. Accordingly, the future of International Relations can be mapped in four scenarios: 1. Each global power tries to undermine the others, i.e. Everyone goes alone = mistrust and anarchy; 2. A coalition between the western powers, i.e. The US and the EU against China = instability; 3. The China Age, i.e. threat for Western powers; 4. The construction of an effective multi-polar world, i.e. The US, The EU and China = equilibrium.

*3 credit hours. Pre-requisites: Junior standing; IA 200 or equivalent.*

### **IA 305 – INTERNATIONAL RELATIONS OF EAST ASIA**

This course examines the nature of international relations in East Asia. Particular attention will be devoted to the positions occupied by Japan and China in the context of the Cold War, as well as to their interactions both with the other regional actors, the two Superpowers and Europe. The analysis of the factors which were generated during the phase of bipolarism will facilitate the

identification of continuity and discontinuity lines in the light of globalization.

Topics will include: (1) the historical development of international relations in East Asia since the mid 19th century, (2) WWII and its legacy, (3) domestic institutions and foreign policy outcomes, (4) regional security issues, (5) regional economic relations, and (6) the implications of these issues for the United States.

*3 credit hours. Pre-requisites: IA 200.*

### **IA 307– INTERNATIONAL HUMAN RIGHTS**

A growing number of international conventions impose human rights obligations on States parties. They also assign to the so-called treaty bodies, as well as to regional courts, the task of ensuring compliance with human rights standards. As of 2006, the UN Human Rights Council monitors respect for human rights by member States. Since the 1990s, the human rights regime has been enriched by its encounter with criminal justice while non-state actors, such as NGOs, play an increasingly relevant role. The course, through an illustration of the general framework as well as an analysis of selected issues, is aimed at understanding how human rights have become a part of the legal system of the international community.

*3 credit hours. Pre-requisites: IA 100 or permission of the instructor.*

### **IA 311 - NATO AND INTERNATIONAL SECURITY**

This course will provide an overview of NATO's role in international security since its establishment during the Cold War to present. Its aim is to introduce students to NATO's structures, policies, and operations as well as to provide them with analytically informed and critical awareness of its role in international security and of the current issues facing the Alliance. Students will learn about the Alliance's organization and structure, its decision-making process, strategy and defence planning, acquiring detailed knowledge of the Alliance's three core tasks of collective defence, crisis management, and cooperative security. Issues, such as NATO's nuclear policy and role in arms control, partnerships, eastern enlargement, relations with Russia and China, and emerging security threats in the energy, cyber, and climate domains will also be debated and addressed.

*3 credit hours. Pre-requisites: IA 100, IA 202, or permission of the instructor.*

### **IA 313 - INTERNATIONAL LAW, PEACE AND CRIMINAL JUSTICE**

This course is aimed at an improved understanding of the relationship between peace (both between and within nations), criminal justice and human rights in an international perspective, by addressing the legal obstacles and ethical dilemmas faced by the international community in pursuing these different but reciprocally connected goals. It addresses the maintenance of peace and security, the fight against impunity for international crimes (such as aggression, genocide, war crimes and torture), the protection of human rights (such as the right to life, to personal integrity and to personal freedom) in the context of different types of conflicts.

*3 credits. Pre-requisites: IA or POL 100-level course.*

### **IA 314 - LAW, GLOBAL GOVERNANCE, HUMAN SECURITY, AND HUMAN RIGHTS**

This course focuses on law, global governance, and human security – the interplay among states, international organizations, and non-governmental actors to create and enforce rules that govern the world. The course provides the opportunity for students to explore global governance and human security in institutional, societal, and global contexts. Global governance aims to ensure stability and world order, providing services and public goods. How are these rules made, and who do they benefit? How were international institutions crafted and how do they enforce international norms and agreements? The course provides students with analytical tools for understanding key actors and current developments in global governance. We will examine the functions and policies of some of the world's major international organizations, and the political forces – both international and domestic – that influence their effectiveness and will explore challenges to global

governance today. Throughout the course, we will apply theoretical concepts to real-world issues, exploring global governance in key policy areas such as human security and human rights.  
*3 credits. Pre-requisites: IA or POL 100-level course.*

### **IA346 - FINLAND JOINING NATO: HISTORIC SHIFT**

Following the Russian invasion of Ukraine (February 2022), major historic shifts are occurring in the international system. One of them is the joint application of Finland and Sweden (both formally neutral states) to become NATO members. Finland was one of the few members of the European Union (EU) that were not NATO members, even though it established formal relations with the Alliance since 1994. Finland applied to become a NATO member in May 2022. The field trip intends to discuss: i) the evolution of the internal debate in Finland - recent polls have support for NATO membership at an all-time high of close to 80%; ii) the impact of Finland's membership considering Russia's fierce reaction. Putin warned that Russia would respond to NATO's attempt to set military infrastructure in Finland (and Sweden); and that Russia could not rule out that tensions would emerge in Moscow's relations with Helsinki and Stockholm over their NATO membership.

*1 credit. Pre-requisites: IA 100, POL 101 or permission of the instructor. Students will pay a fee to cover the costs of the field trip.*

### **IA348 - THE EU, BETWEEN CRISIS AND RENEWAL:XXX**

The course will examine internal and external EU policies and discourse from the perspective of EU institutions and certain Member State (MS) – e.g., Germany, France, Spain and Italy – taking stock of ongoing debates on new investments and reforms to the EU's institutional make-up and decision-making bodies and their impact on EU identity and positioning in the world. Further discussion will examine the future of the Transatlantic Alliance amidst increased competition with Russia and China as well as the United State's shifting priorities; first with the pivot to Asia, then with a more isolationist and critical approach to the EU and the broader UN system.

Topics covered include the analysis of the most widely used techniques in economic and political forecasting (e.g. statistical extrapolation, game theoretical approaches, Delphi techniques, prediction markets, expert judgment), as well as the role of the digital revolution both as a catalyzer for new 'cyber' risks and as a generator of new tools for the collection and analysis of intelligence (e.g. Big data and the 'internet of things'). Students are encouraged to engage in critical reasoning using theory applied to a plethora of case studies on unexpected, 'black swan' political and economic developments – such as the fall of the Berlin Wall, the global financial crises, and the Arab Uprisings.

### **IS 220 – TRAVELS TO/THROUGH ITALY: REPRESENTATIONS OF CONTACTS BETWEEN CULTURES**

The depiction of Italy as a member of the G8 and NATO, a leading provider of fashion, cinema, cars, design, and cuisine, is relatively recent, though widely held. But Italy as the seat of a highly prized way of life traces back through the centuries, with many writers declaring their admiration, from Goethe, De Stael and Stendhal, to Milton and Shakespeare. To understand Italy's contemporary image in the world, this course seeks to understand some of the earlier representations of Italy and Italians from Dante, through the Renaissance and Baroque periods, the Risorgimento, the Great Migration, the Economic Boom and *la dolce vita*, and down to the present time. A primary goal of the course is to connect students' experiences in Rome and Italy more generally with the experiences of other travelers and with the rich and diverse history of what being Italian is. Specific themes will include geography, the persistence of classicism in Italy to the present day, paganism and Christianity, northern Europe vs. the Mediterranean, post-Renaissance decline, rationalism vs. passion, localism vs. nationalism, civilization and the natural. Students will come to realize that, beyond the Italian state, there are many "Italies" conditioned by a variety of historical, political, economic, social, cultural, and religious circumstances.

## **POLITICAL SCIENCE**

### **ECPO 204 – THE EUROPEAN UNION: ORIGINS, EVOLUTION, AND IMPACT**

The course provides an analysis of the emergence and development of the European Union from the aftermath of World War II to the present. The forces, the events, and the individuals that have shaped the European Union (EU) up to now will be presented together with the strength and weaknesses of this project. The EU is the most interesting political entity in history beyond the nation-state trying to reconcile national and supranational interests and values – EU's motto is: "Unity in diversity", *in varietate concordia*. The common currency and a common trade policy have not been met by a common foreign and security policy, or a common tax or immigration policy. The EU project is still in the making. The EU is a controversial political-economic entity facing challenges as showed by the events in its recent past: the failed constitutionalization process; the eurozone debt crisis; Brexit; and the immigration crisis. From the European Economic Community to the Single Market, from the Maastricht Treaty to the euro the course will show the evolution, the institutions, the interests, and the powers of the EU.

*3 credit hours. Pre-requisites: POL 101 or IA 100.*

The course focuses on four key debates characterizing the globalization process: 1) the role of the State and civil society in the post-war international order; 2) the effects of space-shrinking technologies on our social and professional relations; 3) the controversial role of trans-national corporations for development and innovation; 4) the impact of globalization on the environment and the emergence of new theories of value.

Major events and periods in Western military history are used as a repertory of case studies to address some of the most challenging questions surrounding war. ### **POL 314 – CONFLICT AND PEACE IN THE MEDITERRANEAN**

This course addresses recent political and social changes in the Mediterranean area, with a focus on the eruption of political conflicts and the causes behind them. In recent years, a number of Mediterranean states have experienced a struggle between secular and religious forces over political power, and we will look at this struggle via a series of case studies from the three main regions of the Mediterranean area: the Middle East, North Africa, and Southern Europe. While stressing a comparative perspective, regional variations will be addressed throughout the course. Rather than proposing ‘the Mediterranean’ as an essential unit, it will be discussed how different discourses (political and cultural) are part of the creation of the Mediterranean as an ‘area’. For example, in the context of the Barcelona process, the Mediterranean area is imagined as a security zone and as a European area of policy making. The approach is multi-disciplinary, combining political science, sociology, history and anthropology.

### **POL 321 – TERRORISM AND POLITICAL VIOLENCE**

Political violence has always been present. Sometimes it is expressed as a formal war between clearly defined combatants for clearly defined aims; more usually the aims are mixed and the methods and targets even more muddled. It is essential to understand these distinctions, moral, legal, political and practical in order to understand wider political practices both between nation states and within them. Since 1945, there have been almost no “wars” in the traditional sense of the word and very few which approximate to wars between states. Future wars are more likely to be between ill-defined protagonists and since 11 September 2001 and the US’s “war on terrorism”, it has become even more important to understand the roots, aims, morals, ethics and techniques of political terrorism and all forms of political violence.

*3 credit hours. Pre-requisites: A lower-level Political Science course or permission of the instructor.*

Emphasis is put on developments related to recent up-surge of antagonisms in the Greek-Turkish relationship, and on the disinte-

gration of Yugoslavia. Particular attention is paid empirically to the study of Balkan post-conflict reconstruction and reconciliation with the perspective of the region's eventual integration in the Euro-Atlantic structures and theoretically to the models which have been used to analyze and understand the conflicts.
